Do you Have the Trime?

By Jonathan Lerner

They say that good things come in little packages, but in today's numismatic world it really seems that the Three Cent Silver coin is suffering from Rodney Dangerfield syndrome. They just get no respect, and that is perhaps why an extraordinary opportunity awaits the reader of this article.

Why do I love these little guys, also lovingly nicknamed *Trimes or Fishy Scales*? Not only do many of the later dates have low mintages under 5,000 pieces, but a careful study and breakdown of the population reports show that percentage wise very few coins remain from any year. From a very abstract view, let's look at the total Mint State mintages for all years starting with 1851 and ending in 1872 (1873 only had Proofs released). The total mintage adds up to about 42,717,200 and yet PCGS and NGC population reports for all certified non Proof examples is less than 15,000.

Typical MS63 examples that you can find listed in the *CDN Monthly Supplement* range in Bid from $205 to $1,100. Yet at any of the many coin shows I attend I would be hard pressed to find just a few examples combined in dealers' cases on the bourse. Stay with me because I am going somewhere with this train of thought. So in today's marketplace we are talking about an extremely low population of an incredibly old coin, which are still priced **under** $1,000 in today's sizzling market. The only thing missing from the above equation to have this series' prices skyrocket out of sight is more collector interest. Since simple supply and demand rules, even just a small surge in the interest level will cause these coins to gain price momentum at much higher levels. I believe that the interest is out there, like a stewing volcano eruption about ready to explode. At each new coin show I meet more and more collectors who introduce themselves to me and share their interest in a piece or two. Many of the really smart dealers have begun hoarding dates and now many of the more serious numismatists are taking up the challenge of trying to complete a full set, which is certainly no easy task to accomplish. So before we delve into the analysis by date, here is a little history lesson about the series.

It has always been told in the short story version that this odd denomination occurred because our friends at the United States Postal Service decided to lower the **prepaid** rate of postage on letters weighing not more than one-half ounce and addressed to locations not more than 3,000 miles apart from 5¢ to 3¢. This change was among the provisions of the Post Office Act of March 3, 1851. First and foremost please get it straight that the Post Office did not lower the postage fee out of the goodness of their hearts, but rather during the 1840s to 1850s rail and steamship transportation was expanding and this in turn created such competition that caused the Post Office monopoly of mail delivery to crumble hence the need for them to lower the rate. It appears that the Post Office set out a unique public relations campaign regarding this reduction! "Let the prepayment of postage on friendly letters-or letters on your own business-be an invariable rule. It is too bad to tax a friend or correspondent five cents for a letter, when by paying the postage yourself the rate is but three cents."

In addition to this advice, several years ago in my research of local newspapers from the era, I came upon information that "postmasters are to be supplied with three cent pieces on remitting the amount to the United States Mint at Philadelphia, which they may require within reasonable limits; and that such other arrangements are made, and will be made, for the distribution of this coin, as will conduce to the public convenience."

However, the real necessity for the introduction of the Three Cent piece was a huge amount of Gold bullion coming from the Great California Gold Rush which had begun in 1848. Because so much Gold was now available, its price in relation to Silver went down. This resulted in the Silver in Silver coins to be worth more than their face value. Since people began to learn that these coins were worth more for their intrinsic value they began to hoard them in massive quantities. In fact, this entire process of melting Silver coins in large quantities and reselling the bullion for up to 6% more in Gold, and then continually repeating the modus operandi, was indeed a very profitable and seemingly endless quest. Most of this Silver ended up being exported to Canada, the West Indies and Central America.

Without Silver change in circulation the only form of small change that would surface were the likes of the Large Cents and Half Cents, private scrip, and merchant tokens. However these were quite unpopular. Just imagine purchasing a shot of whiskey using a Silver Dollar and being given 95 Large Cents in change. Talk about the ultimate way of starting a bar fight!

The answer to the national crises was the passage of a bill by Senator Daniel Stevens Dickson, creating a new coin made of only 75% Silver and 25% Copper to deter counterfeiting. With a melt value below face, this new coin described by the Philadelphia Ledger as, "decidedly neat and tasty, will be a measure and convenient substitute for coppers" and would also answer the call for convenience of purchase of the 3 cent stamp.

Controversy existed over the design of the coin as Mint Engraver James B. Longacre clashed with Chief Coiner Franklin Peale. If Peale had his way back then we would probably be looking at a Liberty Cap designed by Christian Gobrecht. In an effort to avoid a full blown confrontation with Peale, Longacre wrote to the then Secretary of the Treasury Thomas Corwin to explain his design and ultimately won approval from Mint Director Robert Patterson. One of the reasons was because Longacre's lower relief star design was easier to produce, requiring less pressure to strike and would thus extend the life of the dies. Many people have debated that a trime is too simple a design. While beauty is in the eye of the beholder, bear in mind that the Coin Act of 1851 specifically stated that, "said coin shall bear such devices as shall be conspicuously different from those of the other silver coins and from the gold dollar, but having the inscription United States of America, and its denomination and date." James Longacre acknowledged that he would have preferred more depth and detail, but was severely constrained by the extreme thinness and small size of the piece. Longacre also felt that a complex design would defeat its success.

The first few years of life for the trime were a huge public success, but soon the coins shortcomings became apparent. The coin was so small that it was easily lost, and three cents in that era would be about $2 today. Proper ladies of the era disliked the tarnish shade that the coin turned after being exposed to air. Note that even high-grade specimens are sometimes seen with black marks know as lamination streaks. No wonder they were called *Fishy Scales*.

During 1853, Congress enacted legislation based on the plan of Mint Director George Eckert which reduced the Silver content in coins from Half Dimes to Half Dollars thus allowing most of these coins to return back into circulation. The idea of debased coinage originated with our little trime but it should be noted that the concept did meet

The **CDN MONTHLY SUPPLEMENT** is a supplement to the weekly **COIN DEALER Newsletter** (*Greysheet*); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Bids reported also consider activity in the certified **SIGHT-UNSEEN** market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The **CDN** may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly **CERTIFIED COIN DEALER Newsletter** (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

resistance from Congress at the time, as it basically put our country onto the Gold standard.

It is of note that most of the coinage produced after 1863 were not placed into circulation but rather used for settling accounts with bullion depositors.

In grading Three Cent Silvers contact marks are not common because of the lightness of the coins, however most significant is a dullness, often aggravated by dipping in an effort to bring out the luster. **Type 2** does have more luster because of its higher Silver content, but the most eye appealing dates will usually be **Type 3**. Again because of their small size the use of higher magnification is usually necessary. Friction first shows on the top ridges of the Star on the obverse and on the Roman Numeral on the reverse.

So here is what to look for, by date, based on my personal observations over the years.

Type I (1851-53)

1851: This was the first year they were Minted, and it is not unusual to locate this date in higher grade Uncirculated condition, as many were saved. This is usually the case when a new coin is released. It is exciting to note the term called "Longacre Doubling" where doubling appears on both sides of the lettering, not just one side as usually occurs in strike doubling. Many experts believe it was done intentionally but the verdict is still out.

1851-O: This is the **only branch** Mint issue of the series. Most of the mintage has been in circulation because there were not many coin collectors in that area of the country at that time and collecting by mint mark really did not get started until after the publication of A.G. Heaton's treatise on the subject in 1893. Therefore, be on the lookout for the higher grade examples ranging from MS65-MS67 as these are the real sleepers. The 1851-O also makes a wonderful Type coin and is always popular.

1852: Here is a year in which many were minted and in circulation so they are easy to find, but keep your eyes out for the Holy Grail... the 1852 inverted 1.

1853: Both thin date and heavy date serifs do exist.

Type II (1854-58)

1854: Type II designs begin as required by the Act of March 3, 1853. Type II have 3 outlines around the reverse Star, a bundle of arrows beneath the III, and an olive sprig over the III.

1855: This will be the hardest of the Type II to locate in high grade.

1856: Date is usually weakly struck.

1857: Borders tend to be weakly struck.

1858: You will find that this final year of the Type Two design subtype, is one of the more commonly available issues in all grades up through the Gem level.

Type III (1859-73)

1859: Type III begins, with a reduction of the number of outlines around the central star from 3 to 2. In addition, Longacre assisted by Anthony Paquet used narrower letters and spaced them farther apart than on the previous design. These simple alterations were just enough to help coins strike up better than their earlier counterparts.

1860: This date seems to be outstanding value when compared to their rather limited availability in Choice and better grades typically range from $285 - $375 in MS63/MS64.

1861: Civil War era coin sought-after by many in the lower grades as souvenirs.

1862: Remember to look for the over date 1862/1!

1862/1: A popular Civil War over date which is actually quite common and can be easily identified by seeing a die crack from the rim through the 1 running towards the star.

1863: a 1863/1862 Proof over date is out there though technically it would be a restrike as they were apparently produced in 1864. A recently certified NGC PR67 Cameo sold for $13,225 at public auction.

1864: Many business strikes will appear to be reflective and at first glance appear to be a Proof, a key to distinguish it would be by its very strong clash marks, which would not be the case if it was actually a Proof. Most likely scenario is that the dies had scarcely lost their polish when the business strikes were coined. Beware of forgeries that surfaced in the 1980's from England and differ from genuine coins. The key diagnostic for these imposters would be the digits of the date which are placed **higher** in the field and are thinner than the real McCoy.

1865: Like many of the later dates, most of the mintage was melted in July 1873.

1866: A semi tough date to locate recently a midwest coin dealer sold a PCGS MS62 example at the bargain price of $750; this being somewhat between MS63 Bid/Ask money.

1867: An interesting double date exists, so be sure to check.

1868: Most coins were melted and business strikes are very rare, I would say that only a few surface each year.

1869: Certainly a rare date, look for both the 69/68 and 69/69 date.

1869/68: The key diagnostic is the 6 in the over date where the 6 will appear to look like a flat tire rather than fully round.

1870: There are several varieties that do exist and this is a bit easier date to locate.

1871: Always quite scarce, especially in high grade, the 1871 coins are frequently seen with prooflike or semi-prooflike fields. Probably because the original polish from the dies had not had time to wear off by the time the 3,400 business strike coins had been produced.

1872: This is one of the toughest dates to come across and many times Proofs will be confused with the business strike.

1873: Remember that 1873 is a Proof-only, popular date.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646), or online at www.money.org

Key Date Saint-Gaudens 10-Year Value Comparison

By Paul Zappasodi

Much has been written about the $20 Saint-Gaudens series since it is quite possibly the most popular Gold coin sought-after today. I'd like to discuss the rarity/value relationship of the top ten scarcest dates, in Mint State condition. I will exclude the 1933 from this discussion since there is only one coin legal to own and therefore unobtainable by the majority of registry collectors. Although most coins have appreciated in value over the last 10 years, the Saint-Gaudens series has been the area of some of the biggest increases. In compiling this list, PCGS and NGC population numbers are used as a starting point as well as *CDN* values over the last ten years. Needless to say, population report numbers are not entirely accurate due to resubmissions; however they do still represent a high degree of accuracy. The increasing popularity of registry sets makes such analysis important for current and future collectors. (All population data is current as of 2/2/07)

The Top Ten Mint State Saints

#10 1908-S

The 1908-S has the distinction of being the lowest mintage date (22,000) in the series (aside from the 1907 $20 High Relief). Since we are focusing on Mint State examples today, some would be surprised to see this date in the top ten list, however with a certified PCGS population of 122 and an NGC population of 126 in all Mint State grades I rank it number 10. Most Uncirculated coins have soft satiny luster and an adequate strike. There are a small number of heavily abraded and unattractive lower grade Mint State coins which came over from Europe in the last few years. None of those coins were above MS63 in quality. This may be the reason why dealers haven't Bid aggressively over the last 3 or 4 years. For example; 1908-S has a current MS63 *CDN* **wholesale** Bid of $15,500. These have been trading at auction in the last year for between $19,578 and $21,850. The latter coin I purchased out of the ANR sale in Rosemont, Illinois June 23 of last year. Needless to say I resold the coin for a profit. I believe the value of the 1908-S should therefore resemble the value of other key date Saints with equal rarity and population. One date that comes to mind is the 1926-D. The combined certified population of both dates in MS60-62 is 142 (1908-S) and 123 for the 1926-D, roughly equal, yet the 26-D trades for over twice the price of the 08-S. Moreover in MS63 the 1908-S has a certified population of only 31 while 1926-D has certified population of 52. Once again, the current *CDN* MS63 Bid for the 1926-D is $34,500, more than twice the 1908-S. It isn't until MS64 and above that the 1926-D establishes its higher rarity. One could therefore make the argument that the 1908-S is undervalued by today's price levels. Still, the 1908-S has appreciated in the last 10 years climbing from a February 1997 MS63 *CDN* Bid of $7,100 to today's *CDN* Bid of $15,500.

#9 1926-D

The 1926-D has always been considered rare. Most of the original mintage of 481,000 coins is thought to have been melted by the government back in the 1930s. The only coins that survive today seem to be a few that made it over from Europe back in the 50s and 60s and some that were retained by collectors of the day. The PCGS population of

113 and NGC population of 92 in all Mint State grades seem to bear this out. The 1926-D is extremely rare in grades above MS63. When available, the 1926-D is usually well struck with good luster. *CDN* Bid for MS60-64 grades have nearly doubled over the last 10 years.

#8 1927-S

The 1927-S, even with its high mintage of 3,107,000 is another date that did not escape the government's melting pot. Considered a great rarity even back in the 1940s, on par with the fabled 1927-D, until a small group of coins were discovered in the 50s and 60s. Currently it is still a very rare date, with a PCGS population of 69 coins and an NGC population of 83 coins in all Mint State grades. Most of the certified population is for grades below MS64. When available, the strike can vary from full to being weakly struck in certain areas, however luster is usually good. *CDN* Bid for MS60-64 grades have more than doubled over the past 10 years.

#7 1931-D

The 1931-D is part of what I call the "Fab 5" of dates in the $20 Saint-Gaudens series. The Fab 5 referring to the date run of Double Eagles from 1929-1932. These dates have been some of the most sought-after and highest appreciating in the series. The original mintage of 106,500, while low, was not generally released into circulation and the majority of the coins were subsequently melted. The few that survive apparently came over from Europe as it seems that 31-Ds were struck primarily for export. As such, almost no circulated coins have been discovered to date (certified PCGS and NGC population of only 3) Total certified Mint State population is 95 for PCGS and 48 for NGC. The vast majority of coins graded are in the MS62-64 grades. When available, the strike and luster are usually strong but they are typically plagued by bagmarks. To illustrate the dramatic rise in value of this date, we go back to February 1997 when MS63 *CDN* Bid was $16,000. As of February 2007, *CDN* Bid is $75,000, an increase of nearly 370%! In MS64 they have increased from a February 1997 *CDN* Bid of $21,000, to a current *CDN* Bid of $90,000, nearly a 330% increase. The higher grades have fared nearly as well with MS65s increasing from a February 1997 *CDN* Bid of $50,000 to a current *CDN* Bid of $103,000: up 106%. Recent retail **auction** results however show MS65s selling for $126,500.

#6 1932

The 1932 has the distinction of being the last "Fab 5" date in the run as well as being the last readily collectible Saint-Gaudens Double Eagle. The mintage figure of 1,101,750 is high; however like the rest of the 1929-32 date run, most were melted by the U.S. government in the early 30s. Since this date was never released into circulation, no circulated examples are known to exist and none have been graded by either PCGS or NGC to date. The current PCGS population in Mint State is 59 and the NGC population is 70. The vast majority of coins

CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (*Greysheet*) both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current trading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

graded are in the MS64-65 range. When seen, the 1932 is always well struck and lustrous. The 1932, like the rest of the "Fab 5" has appreciated tremendously over the last 10 years. In February 1997 MS63 *CDN* Bid was $15,000. Current *CDN* Bid is $60,000, an increase of 300%. In 1997 MS64 *CDN* Bid was $19,000. Current *CDN* Bid is $75,000, an increase of 295%. Gem MS65s have also done well, appreciating from a February 1997 *CDN* Bid of $34,000 to a current *CDN* Bid of $88,000, an increase of 159%. Current auction records show some MS65s selling for $92,000-$103,500.

#5 1931

The 1931 is another date in the "Fab 5" run. Although the mintage of 2,938,250 is considerable, most coins never made it out of the government's vaults and were subsequently melted. Just like the 1931-D almost no coins entered circulation. The combined PCGS and NGC population of circulated coins is only 2. The PCGS population in Mint State is 74 and the NGC population is 39. The vast majority of coins graded are in the MS63-65 range. The typical 1931 is of high quality with a very good strike and frosty luster. The 1931 is of slightly higher rarity than the 1931-D and 1932 overall, although in Gem MS65 condition the 1931-D is rarest. In terms of appreciation over the past 10 years, the 1931 has risen from a February 1997 MS63 *CDN* Bid of $18,000, to a current *CDN* Bid of $55,000, a 205% increase. In MS64 they have increased from a February 1997 *CDN* Bid of $24,000, to a current *CDN* Bid of $70,000; a 191% increase. Gem MS65s have appreciated from a February 1997 *CDN* Bid of $47,500 to an $85,000 *CDN* Bid today, an increase of 79%.

#4 1920-S

The 1920-S Double Eagle is a classic rarity. The original mintage of 558,000 coins was never widely circulated and it is apparent that most were melted by the government in the 30s. No group or hoards have ever been discovered and this date does not appear in any groups of coins discovered in Europe. As such, it has been recognized as a rarity as far back as the 1930s. The PCGS population in Mint State is only 47 coins, the NGC population is 50. The vast majority of coins graded are in the MS62-64 range. When available, 1920-S is usually weakly struck with mediocre luster. It can be a challenge to find an attractive coin. This date has appreciated in value in all Mint State grades over the past 10 years. In MS63 quality, *CDN* Bid has gone from a February 1997 level of $36,500 to a current *CDN* Bid of $71,000, an increase of 95%. In MS64, they have risen from a February 1997 *CDN* Bid of $55,000 to a current *CDN* Bid of $135,000; a 145% increase. Gems trade very infrequently, however MS65 *CDN* Bid has risen from $75,000 to $150,000 in the last 10 years. It is likely that if an MS65 did appear on the market it would garner at least $200,000. The most recent MS66 Eliasberg/Duckor example sold was out of the Phillip H. Morse sale in November 2005 where it brought $517,500.

#3 1921

The 1921 is another classic rarity in the Saint-Gaudens Double Eagle series. Few dates inspire such zeal in collectors. Most of the original mintage of 528,500 coins seems to have been largely melted, as evidenced by the small number of coins left surviving today. While it is probable that a small number of coins made it over to Europe, very few coins have appeared from that source to date. In terms of overall rarity, the 1921 is very similar to the 1930-S, except in grades above MS63 where the 1921 is significantly rarer. In fact, one could argue that the 1921 is the hardest date to obtain in Gem condition in the entire Saint-Gaudens Double Eagle series. In Uncirculated grades, the PCGS population is 47 while the NGC population is 44. The vast majority of coins graded are in the MS60-62 range. When found, 1921s typically have an average strike with soft satiny luster. This date has done exceptionally well over the last 10 years with MS60 graded coins rising in value from a February 1997 price of $25,000 to today's price of $85,000, a 240% increase. In MS63 condition, *CDN* Bid has risen from $51,000 in February 1997, to today's *CDN* Bid of $200,000, a 292% increase. On that note, an MS63 recently traded in the October 2006 Heritage sale for $218,500. Another PCGS MS63 example in the November 2006 Stack's Norweb sale brought $166,750.

#2 1930-S

The 1930-S stands out as an important rarity. The original mintage of 74,000 coins was never released into circulation and was then subsequently melted. It is therefore likely that the only surviving coins were obtained directly from the Mint in 1930. The 1930-S is one of the greatest rarities in the Saint-Gaudens series with fewer coins surviving in all grades than any other date aside from the famous 1927-D. While none were released in circulation, PCGS and NGC show a combined 2 coins graded in AU58 condition. The remainder of the Mint State population shows 39 coins graded by PCGS and 15 coins graded by NGC. The majority of the coins graded are in MS63-64 condition. When encountered, the 1930-S usually shows an adequate strike and soft luster, although bagmarks tend to be prevalent. As with the other dates on this list, the 1930-S has appreciated substantially in the last 10 years with MS63 examples rising from a February 1997 *CDN* Bid of $28,000 to $94,500 presently. This is an increase of 238%. It is a similar result for the MS64 grade which has risen from a 1997 *CDN* Bid of $32,000 to the current *CDN* Bid of $130,000. This represents an increase of 306%. Gem MS65s have shown similar appreciation.

#1 1927-D

This is it, the King of the series as well as being the rarest 20th century U.S. Gold coin struck. Although pages could be written about this date, I will try to give you an abridged version. Out of the original mintage of 180,000, only 10-12 coins survive, with the rest being melted by the U.S. Mint. Current population data by both grading services support this as there are only 7 coins graded by PCGS and 5 by NGC. When seen, the 1927-D is well struck with excellent luster. In fact, only 2 of the coins graded are below MS65 quality, one being an AU58. Out of the 10-12 coins estimated to survive, 3 are in the Smithsonian Institution collection. This leaves at best 9 coins that can obtained by registry collectors. Prices for the 1927-D Saint-Gaudens have skyrocketed in the last 10 years with nearly any Mint State example bringing over $1 million. In February 1997 *CDN* Bid for MS65 grade was $375,000. Current *CDN* Bid is now $1.5M, a 300% increase. The finest example graded is the Phillip H. Morse coin (PCGS MS67) which sold for $1,897,500 back in November 2005.

NGC CERTIFIED GEM BRILLIANT UNCIRCULATED

2007 $5 Gold & $1 Silver American Eagles

Available At Actual Dealer Cost**

Gold Up Over 130% in 5 Years*

Guaranteed and backed by the U.S. Government, the Gold American Eagles are universally recognized as the most trusted way to maintain a private store of gold coinage. At actual dealer cost** of only **$74** per coin plus priority shipping, handling and insurance, now is the perfect time to add the brand-new, 1/10 oz. Year 2007 $5 Gold Eagles to your collection or investment portfolio. With gold prices expected to trend higher, prices for these brilliant uncirculated, legal tender 22k gold heirlooms may never be this low again. Call right now to diversify your portfolio before gold prices rise again.

These 2007 Gold & Silver Eagles are guaranteed to be in Gem Brilliant Uncirculated Condition by the Numismatic Guaranty Corporation [NGC], a **preferred** independent grading and authentication service of Universal Coin & Bullion. Each coin is sonically sealed in a tamper-evident holder to preserve their sharp relief & exquisite detail, a $5 value, at absolutely no additional cost.

Silver Up Over 190% in 5 Years*

Since 1794, when the U.S. Government first struck Silver Dollars, they have symbolized monetary freedom and liberty. Today, the Silver American Eagles continue this historic tradition. Every collection or investment portfolio should include a store of private, portable and liquid silver coinage, and the Year 2007 brilliant uncirculated $1 Silver Eagles, minted from 1 oz. of 99.9% pure fine silver, are the perfect solution. At the amazingly low dealer cost** price of only **$14.80** per coin plus priority shipping, handling and insurance, today is the perfect opportunity to diversify your portfolio with Silver Eagles.

1/10oz. 2007 $5 Gold Eagle

$74.00

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Collecting New Orleans Gold Coinage by Type

by Doug Winter

The traditional method of collecting Branch Mint United States Gold coinage has been to select a specific denomination and to then work on assembling a set of coins which contains one specific example of each date.

But this method is clearly not for everyone. Some collectors do not have the funds available to complete a date set while others find it monotonous to purchase coin after coin with similar designs. I have noticed in recent years that a number of new Branch Mint Gold collectors have turned to a new method of specialization: collecting by Type. As with other forms of Type collecting, collecting Branch Mint Gold by Type involves identifying each major design Type created at a specific Mint and to then attempt to obtain **one** example of this design. In the case of New Orleans Gold coinage, a Type set consists of 13 issues, which are as follows:

Type One Gold Dollar, 1849-1853
Type Two Gold Dollar, 1855 only
Classic Head Quarter Eagle, 1839 only
Liberty Head Quarter Eagle, 1840-1857
Three Dollar Gold Piece, 1854 only
Liberty Head Half Eagle with Small Letters Reverse, No Motto, 1840-1843
Liberty Head Half Eagle with Large Letters Reverse, No Motto, 1843-1857
Liberty Head Half Eagle, with Motto, 1892-1894
Indian Head Half Eagle, 1909 only
Liberty Head Eagle, No Motto, 1841-1860
Liberty Head Eagle, with Motto, 1879-1906
Liberty Head Double Eagle, Type One Reverse, 1850-1861
Liberty Head Double Eagle, Type Three Reverse, 1879 only

The beauty of collecting New Orleans Gold coinage by Type is that it enables a collector to spread out his rare coin investing over a range of items. In other words, if the market for large-sized coins becomes very strong five years down the road, his set will contain at least four pieces which qualify as "Large-sized." If, during the same period, Small-sized coins suddenly fall out of favor, his set only contains four pieces which will be looked at as "small" and which might lose value as a result.

Collecting by Type is also fun as it enables each new purchase made by a collector to represent an entirely different design. In the case of New Orleans Gold coinage, the Type collector will be able to purchase coins produced during a 70 year time period and which represent a remarkable six different denominations.

Here is a quick look at each Gold coin Type produced at the New Orleans Mint and some collecting suggestions which might apply to the new collector considering working on a New Orleans Gold Type set.

I Type One Gold Dollars, 1849-1853

Only six issues were produced and these are among the more common New Orleans Gold coins from the Antebellum era. The 1850-O is clearly the scarcest of the six while the most available are the 1851-O and the 1853-O. This is a Type that will be available in relatively high grades. I would suggest looking for a coin which grades at least MS63 or even MS64. Both the 1851-O and the 1853-O are priced in the $2,000-$5,000 range for MS63 to MS64 examples. Gem Type One Gold Dollars are known to exist, albeit in small quantities. MS65 examples of the 1851-O trade from time to time in the $11,000-$14,000 range.

II Type Two Gold Dollars, 1855 only

Along with the 1839-O Quarter Eagle, the 1854-O Three Dollar and the 1909-O Half Eagle, this is one of just four one-year Types produced at the New Orleans Mint. Because of this fact, the 1855-O Gold Dollar is very popular. This issue is actually relatively common in lower grades and with an estimated 40-50 pieces known in Uncirculated, it can be found in relatively high grade without a great effort. For most collectors, a nice AU58 to MS62 1855-O Gold Dollar will fit the requirements of his or her Type set. A good looking "slider" example should cost $3,500-$4,500 while an MS61 to MS62 will be priced in the $10,000-$20,000 range. I would suggest that the collector be patient when looking for an 1855-O and try to find a piece which is reasonably well struck and which has nice, original color.

III Classic Head Quarter Eagles, 1839 only

The 1839-O Quarter Eagle is one of the most popular Gold coins produced at the New Orleans Mint. It is a first-year-of-issue and a one-year Type plus it features the very popular Classic Head design on which the mintmark appears on the obverse. As many as 350-400 pieces are known in all grades which means that locating an example will not prove to be difficult. The 1839-O becomes more scarce (and expensive) in higher grades but a collector who looks for choice, high grade pieces will be able to locate an 1839-O in MS63 or even MS64. You can count on spending in the $5,000-$6,000 range for a nice AU 1839-O Quarter Eagle while an Uncirculated piece will cost around $10,000 or so for an MS60 and can range all the way up to $25,000-$30,000 for an MS63 and $35,000-$45,000 for an MS64.

IV Liberty Head Quarter Eagles, 1840-1857

Including two varieties in 1843, there are a total of 14 Liberty Head Quarter Eagles produced at the New Orleans Mint. The rarest of these is the 1845-O which had a low mintage figure of just 4,000 while the two most available are the 1843-O Small Date and the 1854-O. Even the most common New Orleans Quarter Eagles are comparatively scarce in Uncirculated and every issue, regardless of date, is rare in MS63 and above. The Type collector will want to select a New Orleans Quarter Eagle which is well struck. Certain issues, like the 1842-O, 1846-O, 1850-O and 1852-O are found with varying degrees of strike. Dates which I would personally recommend as being good for a Type set would include the 1843-O Small Date, 1851-O and 1857-O as these tend to be among the better produced issues. A nice Liberty Head Quarter Eagle will cost the Type collector anywhere from $1,500 to over $20,000; this depends, of course, on the date and the quality which is selected.

V Three Dollar Gold Piece, 1854 only

To many Gold coin collectors, the 1854-O Three Dollar has long been regarded as the "poor relation" to the popular 1854-D. The 1854-O is certainly a far less scarce coin in terms of total number known. However many people do not realize just how scarce the 1854-O is in higher grades; in this case properly graded AU58 and above. The majority of 1854-O Threes show a weak strike. In fact, I would estimate that at least 75% of the surviving examples (if not more) are from a late state of the dies and have had a considerable amount of their original detail removed by Mint personnel. The most desirable 1854-O Three Dollars show a full date and mintmark and have strong detail at the periphery as well. Prices for outstanding examples have risen appreciably in the past few years. As an example, an NGC MS62 recently sold in the January 2007 Stacks auction for $74,750 and I am aware of a PCGS MS62 having traded privately last year for close to six figures. For most Type collectors, a nice AU 1854-O Three Dollar will be sufficient and examples range in price from $5,000 to nearly $20,000.

VI $5 Liberty Head, Small Letters reverse, No Motto, 1840-1843

For the first three years during which Half Eagles were struck at the New Orleans Mint, a Small Letters reverse was employed. Of the three issues, the 1842-O is by far the scarcest while the 1840-O is the most common. The third, the 1843-O Small Letters, is not very well known but it is very scarce and undervalued. For a Type set, I would probably select the 1840-O. Not only is this a first-year-of-issue, but it is a date which in my opinion, is undervalued; especially in higher grades. There are an esti

CIRCULATION & ADVERTISING Betty Morris

The **CDN MONTHLY SUPPLEMENT** is a supplement to the weekly **COIN DEALER Newsletter** (*Greysheet*); both cover the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified) but the grading **MUST ADHERE** to the current grading standard. Bids reported also consider activity in the certified **SIGHT-UNSEEN** market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The **CDN** may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly **CERTIFIED COIN DEALER Newsletter** (*Bluesheet*) provides Bids for certified coins only

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc. 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

mated 150-175 pieces known including two to three dozen in About Uncirculated and another seven to nine in Uncirculated. In AU grades, an 1840-O is valued at $2,500-$5,000+. In Uncirculated, examples will range in price from around $7,500 for an MS60 up to $35,000+ for an MS63.

VII $5 Liberty Head, Large Letters reverse, No Motto, 1843-1857

In 1843, all Liberty Head Half Eagles saw a changeover on the reverse in which the size of the lettering was increased. This change is not all that well known but it is significant and clearly visible to the naked eye. New Orleans produced Half Eagles with this reverse from 1843 through 1847, 1851 and 1854-1857. The **key** issue of this Type is the **1847-O** which, in my opinion, is one of the rarest and most undervalued Gold issues from this Mint. The most common issue is the 1844-O and this is a coin that many collectors will decide to use for a Type set. Nice AU 1844-O Half Eagles can be purchased for $1,000-$2,500 while Uncirculated examples will cost around $4,000 for an MS60 and up to $15,000 or so for an MS63.

VIII Liberty Head Half Eagle With Motto, 1892-1894

After the New Orleans Mint was closed in 1861 as a result of the Civil war, it did not reopen until 1879. Production of Half Eagles did not resume until 1892 and only three With Motto issues (the 1892-O, 1893-O and 1894-O) were produced. The scarcest of these by a considerable margin is the 1892-O, of which just 10,000 examples were produced. The most common is the 1893-O which is easy to find in all grades up to an including MS62 but rare above this. The 1894-O is not as scarce as the 1892-O but it is much harder to find than the 1893-O. For Type purposes, I would probably suggest an 1893-O or an 1894-O in the MS61 to MS62 range. It shouldn't be hard to locate a piece in the $1,250-$2,500 range. Look for a coin without heavily abraded surfaces as many of these With Motto Half Eagles from New Orleans are found heavily bagmarked.

IX Indian Head Half Eagle, 1909 only

The 1909-O Indian Head Half Eagle could well hold the honor as the single **most popular** Gold coin struck at the New Orleans Mint. It is a one-year issue and it is, of course, the only New Orleans Half Eagle of any design which was produced during the 20th century. Only 34,200 were struck and this date is scarce in all grades. Most of the survivors are in the EF and AU grades and Uncirculated 1909-O Half Eagles are very scarce. This date becomes rare in properly graded MS62 and very rare in MS63 to MS64. Gems are among the most difficult of all 20th century U.S. Gold coins to locate and certainly among the most popular as well. For most Type collectors, a nice AU example of the 1909-O will prove to be sufficient for their set. You can expect to spend between $6,000 and $15,000 for an AU coin, depending on the quality.

X Liberty Head Eagle Without Motto, 1841-1860

From a personal standpoint, this is probably my favorite group of New Orleans Gold coins. The twenty-one issues struck during this period of time range from rare (1841-O and 1859-O) to common (1847-O and 1851-O). Every No Motto Eagle from this Mint is rare in Uncirculated grades and the most available date in high grades, the 1847-O, still has a population estimated at only twelve-fifteen in Uncirculated. The higher grades No Motto Eagles from New Orleans are typically seen in the MS60 to MS61 range and are characterized by extensively abraded surfaces. Attractive MS62 and finer examples are very rare regardless of date and I feel that they are wonderful long-term investments. For most Type collectors, a nice AU55 to AU58 piece will work. Dates which I feel are "sleepers" include the 1846-O, 1849-O, 1850-O, 1852-O, 1854-O Small Date, 1855-O, 1856-O and 1857-O. The collector should expect to spend at least $3,000-5,000 for a nice Type coin and considerably more for a high grade example of a scarce date.

XI Liberty Head Eagle With Motto, 1879-1906

The With Motto New Orleans Eagles consist of sixteen issues. The rarest of these, by a considerable margin, are the 1879-O and the 1883-O which have original mintage figures of only 1,500 and 800, respectively. With the exception of these two rare issues, the majority of the With Motto Eagles from New Orleans are relatively common and many dates can even be found in grades up to and including MS63. For Type coin purposes, probably the best choices are the 1901-O, 1903-O and 1904-O. I regularly sell examples of these three dates in PCGS or NGC MS63 in the $3,250-$3,750 range and feel that these are excellent values when compared to a common Liberty Head Eagle (such as a 1901-S) in the same grade. My favorite sleeper dates in this series are the 1880-O through 1882-O and the 1899-O. The former are all very rare in Uncirculated grades but are still highly affordable in AU while the latter is very scarce in MS62 and better yet nice examples can still be found in the $2,000-$3,000 range.

XII Liberty Head Double Eagle Type One Reverse, 1850-1861

The twelve years that Double Eagles were produced at the New Orleans Mint between 1850 and 1861 are incredibly popular with collectors. This is quite remarkable given the fact that there are two issues in this group (the 1854-O and the 1856-O) that have broken the $250,000 mark in their most recent auction appearances and another group of dates (the 1855-O, 1859-O, 1860-O and 1861-O) which can easily sell for $25,000-$50,000+ when they are offered for sale. For the Type collector, the most logical dates to focus on are the 1851-O, 1852-O or 1853-O. An entry level AU example of one of these three dates can be purchased in the $3,000-$4,000 range while a high end example graded AU58 can be found for $13,000-$16,000

XIII Liberty Head Double Eagle Type Three Reverse, 1879 only

The 1879-O Double Eagle is the fourth and final member of the exclusive and popular one-year Type club for Gold coins produced at this Mint. It is clearly the rarest of these four issue as evidenced by its tiny original mintage figure of 2,325 pieces. It is believed that around 75-85 examples are known with many of these displaying heavy wear from long-term circulation. I am aware of around twelve-fourteen examples known in About Uncirculated as well as another three to five in Uncirculated. For many years, the 1879-O was an extremely undervalued issue and as recently as five years ago, the Type collector on a relatively limited budget could still procure a decent example for less than $10,000. This has changed as collectors have become more aware of this coin's status and now it is hard to find even a lower grade slabbed piece for less than $25,000. You can count on spending at least this amount for an EF example and upwards of $50,000 for an AU. An Uncirculated example, if available, is going to cost at least $100,000 and possibly considerably more.

I have seen a considerable upsurge in collecting New Orleans Gold coinage in the past few years. New—and old—collectors realize that these coins offer excellent value relative their price and rarity. While I'm not sure if they will ever reach the level of popularity attained by Charlotte and Dahlonega issues, I do think that they are now seriously recognized as important southern Branch Mint numismatic collectibles.

Over $300 Value for Only $14.95*

Would You Like to MAXIMIZE the Value of Your Rare Coin Portfolio?

At Universal Coin & Bullion we believe the best client is an informed one. That's why we have compiled the Year 2007 Coin and Bullion Kit. Each kit features a hand-picked selection of our exclusive award-winning books, newsletters and private reports valued at over $300! This valuable library helps to reveal to you not only what your coins are worth now, but also shows you how to maximize their value when you sell. Best of all, it's yours for only $14.95 to cover priority shipping & handling (*).

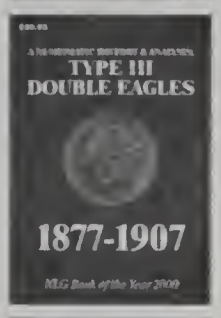

Your Coin and Bullion Kit will show you how to:

- Buy or Sell Certified Gold and Silver Coins Without Getting Ripped Off
- Legally Diversify Your IRA with Gold, Silver or Platinum American Eagles
- Build a Rare Coin & Precious Metals Portfolio of Exceptional Quality & Value
- Save potentially thousands of dollars when buying or selling rare coins
- Help yourself identify coins destined for higher or lower prices

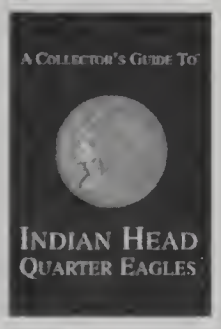

TYPE II DOUBLE EAGLES: 1866-1876

Our essential Type II Liberty Double Eagle price guide received a Numismatic Literary Guild Book of the Year Award in 2002 and in its third printing was revised & updated in its coverage of these landmark United States gold coins. [$19.95 Value]

TYPE III DOUBLE EAGLES: 1877-1907

Also revised & updated in its second printing, our indispensable Type III Liberty Double Eagle price guide received a NLG Year 2000 Book of the Year Award for its thorough coverage of these historic United States gold coins. [$29.95 Value]

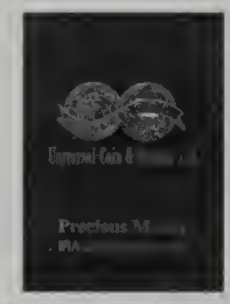

A COLLECTOR'S GUIDE TO INDIAN HEAD QUARTER EAGLES

In a newly revised second edition, our 2001 NLG Book of the Year gives complete listings and coverage on this historically unique "incuse" designed American gold coin series. [$19.95 value]

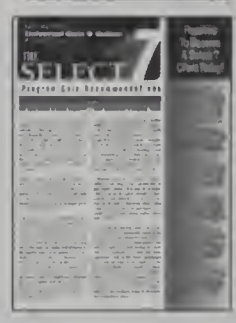

WHY ALL YOUR GOLD, SILVER AND PLATINUM COINS SHOULD BE CERTIFIED!

You also receive a full color, hard-copy of our informative private report that received a 2002 NLG Award for "Best Article" featuring a detailed insiders look at PCGS & NGC coin certification. [$9.95 value]

HOW TO PUT YOUR COINS IN AN IRA

Our proprietary Private Report teaches you how to establish a precious metals portfolio by purchasing Gold, Silver & Platinum American Eagles using your IRA funds. A must for precious metals enthusiasts who saw gold prices rise 25% in 2006. [$9.95 value]

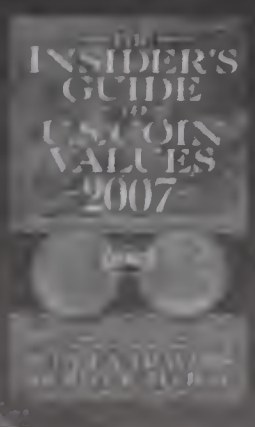

THE TOP COIN PICKS FOR 2007

In our Private Report you will find out which rare coins made the grade for our Select 7. Many of our $3 and $5 Indian Head coin **picks for 2005 saw price increases ranging from 50% to 100%.** Find out which coins are headed for higher prices in 2007. ($9.95 value)

According to a former U.S. Mint Director, the number of rare coin collectors has risen from about 2 million in 1998 to approximately 60 million today!

2 BONUS GIFTS!

Over $200 Additional Value

All new client orders will receive two additional FREE BONUS GIFTS valued at over $200 to complete their 2007 Coin & Bullion Kits. The first is a FREE copy of the brand new edition of "The Insider's Guide to U.S. Coin Values 2007." Our very own award-winning numismatist, Mike Fuljenz, serves as the gold coin price coordinator for this perennial best-selling rare coin price guide. **COINage magazine says: "If you're buying just one price guide to see what your coins are worth, this is the obvious choice."** It's yours FREE, along with a five-year FREE subscription to our 8-time NLG award-winning rare coins and precious metals newsletter, Investor's Profit Advisory, previously lauded as the "Best Dealer Publication" in the entire industry. Both are yours FREE with your order today. **(Over $200 Value)**

***It's all yours for only $14.95 to cover priority shipping & handling.**

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60–Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63–Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins

MS64–Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible

MS65–Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal

MS67–Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Small Denominations Reap Big Rewards in Carson City Coinage Series

by Rusty Goe

Part 1

In the never-ending search for challenging sets of coins to assemble collectors long for attention-grabbing experiences that will lead to personal fulfillment. Remembering things past, thoughts of complete albums of Lincoln Cents, Buffalo Nickels and Morgan Dollars elicit fond memories of many a hobbyists' standard bill of fare. But there comes a time when these stalwart series of coins don't stimulate the senses as they once did, at least as far as some collectors are concerned. A been-there-done-that mentality occasionally causes a seasoned numismatist to step outside the box in his quest for greater thrills in the set-building process.

Many different categories of coins have satisfied these insatiable desires for more rewarding experiences through the years. For some collectors, the pursuit of varieties itches the scratch; for others a Type set quenches the thirst; and still others find that Proof Gold does the trick. The beauty of coin collecting is its diversity. For there is an innumerable array of options available to broaden anyone's numismatic horizons.

A growing number of collectors have discovered the Carson City coinage series, which seemingly increases in popularity with each passing decade. Practically everyone is familiar with the "CC" Morgan Silver Dollars, an interesting set of thirteen dates that have provided collectors with untold pleasures through the years. But there are of course nine other series of coins from the Carson Mint, all of which offer their own measure of enchantment. In this article and the one to follow, we will be examining the two smallest denominations produced at the Mint in Carson City. The time seems more inviting than ever to consider these two sets of coins as options for collectors looking for the ultimate prize.

This month's article will focus on the Dimes, while next month's article will spotlight Twenty-Cent pieces.

Carson City Dimes

A complete set of "CC" Dimes would of course consist of ten pieces, although since there is only one example of the 1873 without Arrows variety known to exist, collectors, with the exclusion of one fortunate individual will have to settle for nine pieces. For the sake of reference the 1873-CC without Arrows Dime will be included in this study.

Please keep in mind that grading service populations can be somewhat skewed due to the multiple re-submissions of the same coins as well as in-house editing errors. We use the combined PCGS-NGC populations in all grades as of April 2007. Also, regarding survival estimates for all grades, I have excluded damaged coins from the totals, concentrating only on those examples that would qualify for grading at PCGS and NGC.

1871-CC

Original Mintage	Survival Population	Total Certified	Certified MS	Highest Grade PCGS	Highest Grade NGC	Unc Value 1957	MS65 Bid 2007
20,100	70	47	7*	MS-64	MS-65	$450	$130,000

*Probably no more than four due to crossovers from one service to the other.

This date is from the first year that Dimes were struck at the Carson City Mint and is highly coveted by collectors. The majority of surviving examples are graded in Very Fine or below, although there are a dozen or so pieces in Extra Fine to Almost Uncirculated that are generally very attractive. Prices have soared for 1871-CC Dimes in recent years in all grades, but especially in the Mint State category. Consider for example, the James A. Stack specimen, which sold for $50,000 in 1990, that brought $230,000 in a Bowers and Merena sale in March 2005. It is the finest known example and is currently encased in an NGC MS-65 holder.

1872-CC

Original Mintage	Survival Population	Total Certified	Certified MS	Highest Grade PCGS	Highest Grade NGC	Unc Value 1957	MS63 Bid 2007
24,000*	95	67	1	MS-63	AU-55	$325	$100,000

*Some sources say 35,480

Probably the **most undervalued** date in the "CC" Dime series. Collectors searching for examples in grades between Extremely Fine and Almost Uncirculated know how slim the pickings are. There is one lone Mint State specimen, with the next highest grade being a single example in PCGS AU-58. This AU-58 piece was undoubtedly catalogued as a Mint State specimen in auctions from forty or more years ago. Accurately graded examples in circulated condition that are priced anywhere near current wholesale Bid offer tremendous value.

1873-CC without Arrows

Original Mintage	Survival Population	Total Certified	Certified MS	Highest Grade PCGS	Highest Grade NGC	Unc Value 1957	MS65 Bid 2007
12,400	1	1	1	MS-65	~ ~ ~	$7,500	$775,000

The word unique admits no degrees of comparison and nowhere is this more applicable than in reference to the celebrated 1873-CC without Arrows Dime. In 1915 the United States Coin Company of New York wrote of this Dime in their auction catalog that it was "of the greatest rarity, and we believe unique, as we cannot find a record of any other specimen. The rarest and most important coin in the mintmark series." The Dime sold for $170 in that sale. In 1950, the Numismatic Gallery of Beverly Hills, California, said this in their auction catalog concerning the 1873-CC without Arrows Dime: "[this] excessively rare coin is among the rarest of all U.S. coins, not excluding any of the better known rarities, such as the 1804 Draped Bust Dollar or the 1913 [Liberty] Nickel, etc... To own this Gem is to own a coin the equal of which will probably never appear." It brought $3,650 in that sale, and subsequently found its way into the Louis E. Eliasberg, Sr. collection five months later for the price of $4,000. It remained off the market for almost forty-six years, at which time Waldo Bolen purchased it for $550,000. In 2004 I purchased this revered piece of numismatic history for $891,250 and then subsequently sold it for an undisclosed price. Everything said about this coin in auction catalogs of the past is very much relevant today. There is no equal to the 1873-CC without Arrows Dime, especially considering that it was a regular issue coin, unlike the 1804 Dollar, the 1913 Liberty Nickel and the 1894-S Barber Dime. As time passes, its value will surely eclipse that of these other venerated rarities.

1873-CC with Arrows

Original Mintage	Survival Population	Total Certified	Certified MS	Highest Grade PCGS	Highest Grade NGC	Unc Value 1957	MS64 Bid 2007
18,791	80	78	2	MS-65	MS-65	$750	$67,500

Brought forth by the Coinage Act of 1873 the with Arrows Variety of the 1873-CC Dime has become a rarity in its own right. Dating back one hundred years ago or more auction catalogues routinely heralded the 1873-CC with Arrows Dime for its extreme scarcity. This is undeniably evident in grades above Very Fine. There is a veritable wasteland of population figures for this date in grades between Extremely Fine and the two MS-65 specimens. Consider for example that in the combined totals for PCGS and NGC there are only seven listings in this grade range including: one XF-40; three XF-45s; one AU-50; one AU-55; and one AU-58. Of course we must keep in mind that several of these listings are probably the same coin, as a result of multiple re-submissions or crossovers. *Greysheet* wholesale dealer to dealer Bid for Extremely Fine specimens is $12,750 and Bid for AU coins is $24,000. If you are fortunate enough to obtain an example in either grade category at anywhere near these price levels consider yourself lucky. As for the Uncirculated specimens, the less attractive of the two MS-65 examples brought $230,000 when last auctioned by Bowers and Merena in March 2005.

1874-CC

10,817	40	31	4	MS-63	MS-62	$900	$140,000

This is the indisputable scarcest date out of the nine **collectable** dates in the "CC" Dime series (excluding the 1873-CC without Arrows). In my book, *"The Mint on Carson Street"*, I estimated that as many as thirty-five examples (excluding damaged and problem coins) of this date in all grades might exist. I have conservatively increased that estimate by five pieces due to the discovery of several new examples. This doesn't make it any easier for collectors to locate the missing coin in their sets, however. It really doesn't matter what grade range we consider, as populations are barren from top to bottom. There are only four Mint State specimens at most and maybe another four in the AU category (PCGS has not graded an 1874-CC in AU). Current *CDN* wholesale Bids in all grade levels offer exceptional value if anyone is willing to sell at these prices that is

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (*Greysheet*) both [illegible] Dealer wholesale coin market monitoring all possible transactions and offers to buy and [illegible]. The coins may be certified or 'Raw' (uncertified) but the grading MUST ADHERE to the current [illegible] standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market such Bids may include [illegible] attention to certification for a particular service. Bids for a 'Raw' coin may be higher or lower [illegible] certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers [illegible] will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (*Blue sheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

1875-CC Above Bow

Original Mintage	Survival Population	Total Certified	Certified MS	Highest Grade PCGS	Highest Grade NGC	Unc Value 1957	MS65 Bid 2007
4,645,000	10,000	245	195	MS-66	MS-67	$8	$1,350

A perceived demand for small denomination Silver coins triggered by the passage of the Specie Resumption Act opened the floodgates at the Mints across the nation even filtering down to the branch in Carson City. Whereas fewer than 100,000 Dimes combined had been struck at the Carson Mint between 1871 and 1874 now there were that many being manufactured in one week in 1875. At some point during the effusive production schedule the Bureau of the Mint altered the position of the mintmark, resulting in two varieties from the San Francisco and Carson City Mints. Though no one knows for sure what percentage of Dimes from 1875 was distributed between the Above Bow and the Below Bow varieties, clearly the lion's share consisted of the former. Surviving populations attest to the fact that there are at least three times as many examples of the Above Bow variety then there are its counterpart Below Bow version. But while there might be thousands of 1875-CC Above Bow Dimes in a wide assortment of circulated grades, there are relatively few in Uncirculated condition. *Greysheet* wholesale Bid for examples of this date in MS-64 and MS-65 are $550 and $1,350 respectively. Also, recent retail auction prices have ranged from $635 to $750 in MS-64 and $1,955 and $4,600 in MS-65. Expect to pay substantial premiums for the most attractive specimens.

1875-CC Below Bow

Original Mintage	Survival Population	Total Certified	Certified MS	Highest Grade PCGS	Highest Grade NGC	Unc Value 1957	MS65 Bid 2007
4,645,000	3,500	81	53	MS-65	MS-66	$10	$1,900

Clearly the most elusive of the two "CC" Dime varieties from 1875. Though no one could possibly know for certain the exact number of 1875-CC Dimes extant (both varieties combined), we can make intelligent estimates based on appearances in trade publication ads, online listings, and auction results. After dealing in "CC" coins for twenty-five years it is obvious to me that there are fewer of the Silver Type coins, even the so-called common dates, than anyone could have predicted. When you consider that there might have been approximately one million examples of the 1875-CC Below Bow Dimes Minted it is inconceivable to imagine that only fifty three specimens have been certified in Mint State condition after twenty years of grading service activity. But this is the reason why a **high-end** specimen graded MS-65 by NGC would sell for $6,038 at a recent public auction. Not all examples in MS-65 bring that much money of course, but retail prices have ranged between $1,955 and that high number of $6,000 during the past year.

1876-CC

Original Mintage	Survival Population	Total Certified	Certified MS	Highest Grade PCGS	Highest Grade NGC	Unc Value 1957	MS65 Bid 2007
4,270,000	50,000	483	414	MS-67	MS-67	$5	$1,150

The Carson Mint reached its high water mark of coinage production in 1876 and as a result over eight million Dimes poured out of its coin press room that year. The majority of these were shipped to Sub-Treasury offices across the country to be held in reserve for the anticipated redemption of Fractional Paper Money scheduled by the enactment of the Specie Resumption Law. As it turned out a substantially smaller quantity of small denomination Silver coins was required to facilitate the government's plan, precipitating a mass meltdown of millions of Dimes, Quarters and Half Dollars beginning in the 1880s. Little wonder that an estimated half of one percent of the Silver Dimes Minted at Carson City have survived to this day.

Yet even when you consider that there might possibly be 50,000 or more 1876-CC Dimes extant in all grades, you quickly realize that the overwhelming majority of these are in lower circulated condition ratings. Amazingly there have been fewer than 500 specimens graded by PCGS and NGC in twenty years, with only 414 deserving of Mint State status. This number also includes the interesting Doubled Die obverse variety. 1876-CC Dimes often trade near the wholesale Bid levels listed in *CDN*, although collectors have learned that when contemplating the purchase of specimens with **knockout** eye appeal expect to pay much higher. Witness, for example, the price realized of $6,612 for an exquisite Gem graded MS-67 by PCGS in a November 2006 Heritage auction.

1877-CC

Original Mintage	Survival Population	Total Certified	Certified MS	Highest Grade PCGS	Highest Grade NGC	Unc Value 1957	MS65 Bid 2007
7,700,000	59,000	548	487	MS-67	MS-68	$5	$875

Although the original mintage declined by 570,000 pieces from 1876 to 1877, the latter year has the distinction of being the **most common** date in the "CC" Dime series. There again, this common-date status does not preclude a plethora of surviving examples in Mint State condition as evidenced by the fewer than 500 Uncirculated examples being graded by PCGS and NGC over the past twenty years. Prices for high-end Mint State examples of 1877-CC Dimes in say MS-64 and MS-65 tend to be the least expensive in this specialized series. But according to auction results from the past twelve months collectors can expect to pay between $1,150 to $1,600 retail for MS-65 specimens and between $545 and $650 retail for examples in MS-64. These values can be compared to *Greysheet* wholesale Bids as follows: $875 in MS-65 and $390 in MS-64. There appear to be thousands of 1877-CC Dimes available in uncertified circulated grades for as low as $25 a piece.

1878-CC

Original Mintage	Survival Population	Total Certified	Certified MS	Highest Grade PCGS	Highest Grade NGC	Unc Value 1957	MS65 Bid 2007
200,000	450	118	79	MS-68	MS-68	$35	$2,150

The Treasury Department slammed the brakes on coinage production at the Carson City Mint in early 1878 in anticipation of the launch of the new Morgan Silver Dollars. The last 200,000 Dimes ever struck in Carson City were Minted in the early days of 1878 resulting in the birth of a semi-rarity. Today, the 1878-CC Dime ranks sixth in terms of scarcity in the "CC" series, nowhere close the issues from 1871 to 1874 in status, yet even further separated from the pack of dates between 1875 and 1877. Even in circulated grades collectors know how difficult it is to locate examples of 1878-CC Dimes. There is an interesting variety attributed to this date called the Shattered Reverse Die. Upon close examination you can see that a portion of the ribbon to the left of the mintmark is practically obliterated, as are sections of the mintmark itself. No premiums as such are being paid for this variety. There is also a small percentage of Prooflike examples of this date in existence.

Collectors desiring examples of 1878-CC Dimes in grades MS-64 and MS-65 can expect strong competition as evidenced by auction prices hovering near $2,000 for MS-64s and $3,200 for MS-65s during the past year. An absolutely gorgeous multi-colored piece graded MS-66 by PCGS sold for $10,350 in early January 2007 at Stack's Orlando sale.

This subset of nine dates (ten if the 1873-CC without Arrows is included) from the larger 116-piece collection of Liberty Seated Dimes represents one of the most rewarding assemblages of coins anyone could hope to own. It is certainly worth a look, especially in terms of potential price appreciation as increasing numbers of collectors are introduced to the Carson City series every year.

Next month we will explore another small denomination from the Carson City Mint that offers big rewards; the Twenty-Cent piece.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices - particularly the pre-1941 issues. Washington rolls - dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646), or online at www.money.org

Small Denominations Reap Big Rewards in Carson City Coinage Series

by Rusty Goe

Part 2

Carson City Twenty Cent Pieces

Every once in awhile, the government makes a mistake in selecting a solution to the coinage needs of the country. In recent decades the ill-fated Susan B. Anthony Dollars quickly come to mind. Occasionally these mis-guided attempts to ameliorate the nation's monetary system result in meaningful opportunities for numismatists. The Susan B. Anthony Dollars are not necessarily an example of a short-lived series that entices a collector's taste buds. Yet on the other hand, the subject of this article, Twenty Cent pieces, has always stimulated the senses of curious hobbyists. No more is this evident than in two dates of the Twenty Cent piece struck at the Carson City Mint.

The first examples of this peculiar denomination displaying the "CC" mintmark were struck at the Carson City Mint at a special ceremony on Tuesday afternoon June 1, 1875. The first one of these was presented to the author of the act introducing the Twenty Cent piece, Senator John P. Jones by Carson Mint Superintendent James Crawford. Jones' bill authorizing the coinage of Twenty Cent pieces, S-468, became law on March 3, 1875. The senator had proposed his Twenty Cent bill to the Senate in 1874 in only his second year in office. The object of this legislation was to rectify an embarrassing situation prevailing in states from Texas to California. Due to a lack of Five Cent denomination coins, made either of Silver or of Copper-Nickel, whenever someone offered a quarter in payment for an item priced at ten-cents or the Spanish-inspired twelve-and-a-half-cents, he would receive only ten-cents in change, resulting in a loss of two-and-a-half to five cents on the transaction. The issuance of a Twenty Cent coin would theoretically eliminate this disparity in the western states. A side-benefit of the enactment of the Twenty Cent law would be the undergirding of the slumping Silver market at a most opportune time, just as the first waves of the epic Big Bonanza period in Nevada were signaling a proliferation in the production of precious metals. Senator Jones' friends in the mining industry acknowledged their gratitude for his efforts on their behalf.

Coinage of the new Twenty Cent pieces was concentrated on the two western Mints, especially the one in San Francisco, primarily because this denomination was practically unnecessary in the east where myriads of Five Cent coins circulated as well as an abundance of Fractional Paper Money in various small denominations. By the end of 1875 the San Francisco Mint had banged out 1.155 million Twenty Cent pieces, nearly **ten times** the Carson City Mint's output. Senator Jones' noble plan failed miserably, however, for several different reasons. Paramount of which was the reluctance of the citizenry to embrace the new coin primarily because of its close resemblance to Quarter Dollars. This in spite of the Mint's attempts to slightly modify the design: including the use of smooth instead of Reeded Edges. Different suggestions were offered by merchants and newsmen in an attempt to stoke the publics' interest in the new denomination including this one from the *Cedar Rapids Times* in Iowa on May 23, 1878: "We suggest that everyone who gets hold of one of these Twenty Cent coins takes his knife and cut a cross on both sides deep enough to be seen. In this way the nuisances would soon all be so marked as to prevent deception." All such efforts to encourage the use of Twenty Cent pieces were to no avail and by 1876 the denomination was all but doomed. Finally in June 1878, President Rutherford B. Hayes signed the bill abolishing this short-lived coin once and for all. Writing of this event on June 20, 1878 a reporter at the *Ohio Democrat* summed up the sentiments of the majority of the nation when he commented that, "It has been 'a regular snare' for the unwary, looking so much like a Quarter Dollar that it was as deceptive as it was unnecessary."

Almost 130 years after the law went into effect eliminating Twenty Cent pieces from the mix of denominations in the country's coinage system, collectors are as intrigued as ever with surviving specimens from this failed experiment. Of greatest interest are the two issues from the Carson City Mint which are profiled in the following section. Please refer to Part One of this article in the April edition of *the CDN Monthly Supplement* for information concerning the statistics used in this study.

1875-CC

Original Mintage	Survival Population	Total Certified	Certified MS	Highest Grade PCGS	Highest Grade NGC	Unc Value 1957	MS65 Bid 2007
133,290	4,000 - 5,500	1,002	506	MS-66	MS-66	$50	$8,500

Senator John P. Jones of Nevada had placed James Crawford in the superintendent's position at the Carson City Mint six months prior to the passage of the act authorizing Twenty Cent pieces and nine months before the first example of this denomination dated 1875-CC was coined. In my new book, *James Crawford: Master of the Mint at Carson City*, I describe how Superintendent Crawford proudly presented this first strike to his mentor Senator Jones. There has been speculation through the years that this presentation piece may have been a Proof coin or at least a Specimen strike, although no evidence supporting this theory has ever surfaced. Certainly numismatists would be mesmerized by the discovery of the *Jones'* specimen of an 1875-CC Twenty Cent piece, if in fact such a coin exists.

For all other examples of this popular date/denomination combination there is still much to appreciate. Considering that there was practically no support for this denomination during its brief two-year run (four if Proof mintages are counted) and that mass quantities were melted after the act abolishing it became law in 1878, it is a wonder that there are as many surviving examples of the 1875-CC Twenty Cent piece as there are. Although no one knows for sure how many of them are extant in all grades I estimate that between three and four percent of the original mintage survives today. These figures have been revised downward since first being published in my book, *The Mint on Carson Street* in 2003.

Whatever the true quantities are, they are certainly not sufficient to supply the ever-increasing demand for this popular issue from the Carson City Mint. This is especially so for collectors seeking 1875-CC Twenty Cent pieces in Choice Uncirculated or better condition ratings. And it becomes even more challenging when collectors insist on bold strikes in these higher-grade categories. For it is commonly known to specialists that the majority of surviving 1875-CC Twenty Cent pieces come with typically weak strikes, usually on the upper corner of the eagle's left wing (facing front) and the upper portions of Liberty's head. Fully-stuck specimens with radiant luster will always command significant premiums.

While the majority of high-end Mint State specimens of this date display attractive, multi-colored toning, there are a few examples in grades MS-64 and MS-65 that are snow-white in appearance with bright flashy surfaces. Some specimens have been seen with Prooflike fields displaying clusters of die polishing lines. Such examples generally provide distinct contrast between the devices and the fields.

Collectors seeking the most pristine pieces in grades AU-58 and up whether the coins display lovely toning or are brilliant and white, and

CIRCULATION & ADVERTISING Betty Morris

The **CDN MONTHLY SUPPLEMENT** is a supplement to the weekly **COIN DEALER Newsletter** (*Greysheet*); both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Bids reported also consider activity in the certified **SIGHT-UNSEEN** market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The **CDN** may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly **CERTIFIED COIN DEALER Newsletter** (*Bluesheet*) provides Bids for certified coins only

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

the* COIN DEALER *Newsletter

www.greysheet.com • cdn@greysheet.com

assuming that they possess full strikes, should be prepared to pay considerably more than wholesale Bid.

At the lower end of the grading scale are numerous examples, generally uncertified, in Good to Very Fine. These will generally have smooth surfaces, numerous hairlines, scattered contact marks and unless they are in Very Fine will probably have no letters in "LIBERTY" visible. Coins in this category are increasing in demand at a steady rate as more collectors operating on limited budgets are assembling 10 piece "CC" Type sets. Wholesale Bids listed in the *Coin Dealer Newsletter* for these grades appear to be within 20 percent of what the coins have been selling for in auctions.

1876-CC

Original Mintage	Survival Population	Total Certified	Certified MS	Highest Grade PCGS	Highest Grade NGC	Unc Value 1957	MS65 Bid 2007
10,000	20	16	16	MS-66	MS-65	$3,800	$120,000

This is one of those dates by which the greatness of collections of the past has been measured. Even before the two rarest issues from the Carson Mint, the 1873-CC *Without Arrows* Dime and Quarter, were recognized for their scarcity-ranking in U.S. numismatics the 1876-CC Twenty Cent piece was revered as a true classic. In one of its first auction appearances, dating back to January of 1890, in the *R. C. Davis* sale conducted by the New York Coin and Stamp Co., the cataloguer wrote in his description that, "We know of no duplicate" of this issue. The coin, which graded Brilliant Uncirculated, sold for $7. Nine years later, another specimen, pedigreed to the prestigious doctor from Carson City Simeon L. Lee, was conservatively graded by the J. W. Scott Co. in their auction catalog as a Fine, with Proof surfaces. The cataloguer added that it was "very rare." This lovely example shattered all price records when it was hammered down for $26.25 on June 12, 1899. Ninety-eight years later this same coin, having been a part of the *Eliasberg* collection for almost fifty-five years, brought $148,500 in the famous sale jointly conducted by Bowers and Merena and Stack's. This time around it was catalogued as a Gem Mint State MS-65 and was well-deserving of this description.

It has been well-documented how Superintendent Crawford was ordered in March of 1877 to melt approximately ninety-nine percent or more of the 10,000 1876 Twenty Cent pieces Minted in Carson City. It is also common knowledge to most long-time numismatists that until the eight or so specimens of this date were introduced onto the market by a Baltimore coin dealer in the 1950s, survival estimates had ranged from a low of four to a high of ten pieces throughout the first half of the twentieth century. There appears to be little chance at this late stage of the game that more than twenty specimens of the 1876-CC will ever be accounted for, firmly establishing this date as one of the all-time greatest U.S. coins, especially considering that it was Minted as a regular federal issue.

If there are twenty examples extant then approximately fifteen are in Mint State condition and five are in various grades of Circulated, with the highest of these being in AU-55 or thereabouts. Before the *Dr. S. L. Lee – Eliasberg* specimen set a new price record in 1997 the closest any 1876-CC Twenty Cent piece came to reaching the six-figure mark occurred in March of 1995 when the *James A. Stack* specimen realized $99,000 in a Stack's sale (No relation to consignor). This was the same coin that had sold in the *William C. Atwater* sale in 1946 for $1,625. In the decade since the *Eliasberg* sale, a specimen of the 1876-CC Twenty Cent piece has crossed the $250,000 barrier.

Probably one of the last opportunities collectors have had to purchase an Uncirculated example of this historic coin for under $100,000 came in January 2000 at Heritage's FUN sale, when a piece graded MS-64 by NGC brought $69,000. A year later in 2001, the unthinkable occurred when two examples graded MS-66, one colorfully toned, and the other white, sold within seven months of each other. The white one brought $161,000 in Superior's March Mid-Winter ANA sale, the same auction in which the *Eliasberg* 1913 Liberty Head Nickel sold for $1,840,000. The 1876-CC Twenty Cent piece in this sale had at one time been in the *Emery and Nichols* cabinet and had sold for $66,000 in 1984 when Bowers and Merena auctioned that famous collection. The toned MS-66 specimen that sold in 2001 brought $138,000 in Heritage's October sale.

Because of the allure of the 1876-CC Twenty Cent piece there is a wide diversity of interest in the collector community, which intensifies the competition for any specimens that happen to come on the market. At the top of the list of those seeking this coin are specialists in the Carson City coinage series. The 1876-CC Twenty Center is considered one of the "holy trinity" in this category joined by the two very scarce (one is Unique) *Without Arrows* coins dated 1873. At least a few brave collectors have scaled the formidable mountain in attempting to complete a 111-piece set of "CC", only to be turned away from conquering the summit by not being able to obtain these last three coins. Two notable "CC" enthusiasts from a bygone era, considered their acquisition of an 1876-CC Twenty Cent piece as the final touch on their momentous collections. One was Harold M. Budd from Southern California who obtained his 1876-CC Twenty Center in June 1950 for $1,325 at the same auction that produced the 1873-CC *without Arrows* Dime that eventually wound up in the *Eliasberg* collection. Mr. Budd had also obtained an example of the 1873-CC *without Arrows* Quarter prior to this auction and considered that his "CC" collection was as complete as it would ever get.

The other individual was Nevada real-estate magnate Norman Biltz who obtained his 1876-CC Twenty Cent piece for $12,750 in 1966 via his agent in a Kreisberg-Schulman sale. Biltz, who did not possess an example of the 1873-CC *without Arrows* Quarter, was gleeful over finally adding a 76-CC Twenty Center to his set of "CC" coins and considered that he had gone as far as he could go in his collecting pursuits. His entire collection eventually was donated to the Nevada State Museum twenty-three years after Biltz died. It is on permanent display at that institution. Last year I appraised the museum's collection and estimated the value of its 1876-CC Twenty Cent piece at between $250,000 and $300,000.

As you can see there is much to become absorbed in when considering the small change issued by the Carson City Mint. Once you open one door to the legacy left behind by this historic Mint, many more beckon you to knock and enter. If you would like to learn more please considering becoming a member of the Carson City Coin Collectors of America.

At Universal Coin & Bullion we believe the best client is an informed one. That's why we have compiled the Year 2007 Coin and Bullion Kit. Each kit features a hand-picked selection of our exclusive award-winning books, newsletters and private reports valued at over $300! This valuable library helps to reveal to you not only what your coins are worth now, but also shows you how to maximize their value when you sell. Best of all, it's yours for only $14.95 to cover priority shipping & handling (*). We only have 100 kits set aside for this offer, so don't be dissapointed call your account representitive today!

Your Coin and Bullion Kit will show you how to:

- Buy or Sell Certified Gold and Silver Coins Without Getting Ripped Off
- Legally Diversify Your IRA with Gold, Silver or Platinum American Eagles
- Build a Rare Coin & Precious Metals Portfolio of Exceptional Quality & Value
- Save potentially thousands of dollars when buying or selling rare coins
- Help yourself identify coins destined for higher or lower prices

TYPE II DOUBLE EAGLES: 1866-1876
Our essential Type II Liberty Double Eagle price guide received a Numismatic Literary Guild Book of the Year Award in 2002 and in its third printing was revised & updated in its coverage of these landmark United States gold coins. [$19.95 Value]

TYPE III DOUBLE EAGLES: 1877-1907
Also revised & updated in its second printing, our indispensable Type III Liberty Double Eagle price guide received a NLG Year 2000 Book of the Year Award for its thorough coverage of these historic United States gold coins. [$29.95 Value]

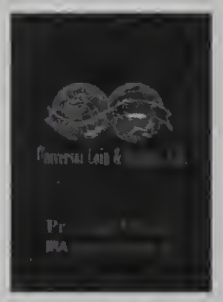

A COLLECTOR'S GUIDE TO INDIAN HEAD QUARTER EAGLES
In a newly revised second edition, our 2001 NLG Book of the Year gives complete listings and coverage on this historically unique "incuse" designed American gold coin series. [$19.95 value]

WHY ALL YOUR GOLD, SILVER AND PLATINUM COINS SHOULD BE CERTIFIED!
You also receive a full color, hard-copy of our informative private report that received a 2002 NLG Award for "Best Article" featuring a detailed insiders look at PCGS & NGC coin certification. [$9.95 value]

HOW TO PUT YOUR COINS IN AN IRA
Our proprietary Private Report teaches you how to establish a precious metals portfolio by purchasing Gold, Silver & Platinum American Eagles using your IRA funds. A must for precious metals enthusiasts who saw gold prices rise 25% in 2006. [$9.95 value]

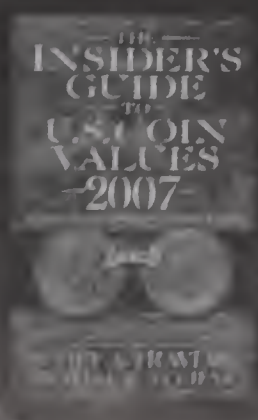

THE TOP COIN PICKS FOR 2007
In our Private Report you will find out which rare coins made the grade for our Select 7. Many of our $3 and $5 Indian Head coin **picks for 2005 saw price increases ranging from 50% to 100%.** Find out which coins are headed for higher prices in 2007. ($9.95 value)

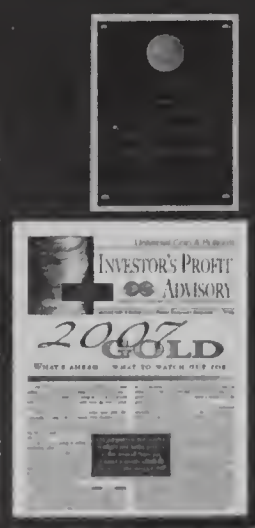

According to a former U.S. Mint Director, the number of rare coin collectors has risen from about 2 million in 1998 to approximately 60 million today!

2 BONUS GIFTS!

Over $200 Additional Value

All new client orders will receive two additional FREE BONUS GIFTS valued at over $200 to complete their 2007 Coin & Bullion Kits. The first is a FREE copy of the brand new edition of "The Insider's Guide to U.S. Coin Values 2007." Our very own award-winning numismatist, Mike Fuljenz, serves as the gold coin price coordinator for this perennial best-selling rare coin price guide. **COINage magazine says: "If you're buying just one price guide to see what your coins are worth, this is the obvious choice."** It's yours FREE, along with a five-year FREE subscription to our 8-time NLG award-winning rare coins and precious metals newsletter, Investor's Profit Advisory, previously lauded as the "Best Dealer Publication" in the entire industry. Both are yours FREE with your order today. **(Over $200 Value)**

***It's all yours for only $14.95 to cover priority shipping & handling.**

Limit one (1) Coin & Bullion Kit per household.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series some of the rolls in the late 50's tend to be dark—these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mercury series "gem full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

N A C A,
a Leading Insurance Provider For Coin Dealers

now offers

ship and insure.com

If you ship packages every month with values between

$500 and $50,000

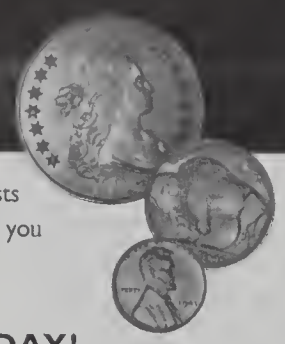

'shipandinsure.com' can save you $100s or $1000s!

Don't wait. See how the NACA can benefit you and your business.
Put these valuable savings back in your pockets!

For Coin Dealer Insurance call:
Barb Wingo at 800-685-6746

For ShipandInsure.com call:
Elaine Lockard at 877-393-5310

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

PEACE DOLLARS
Where They Stand Today

by Mary E. Sauvain

For all practical purposes, there were no Dollars struck from 1936-1970 (all 1964-D Peace Dollars were not distributed and all were ordered melted). Since 1971 (with the exception of 1982 and 1985), Dollars of some type have been struck annually by the U.S. Government. Most recently, of course, is initiation of the Presidential Dollar coin program in 2007. Currently a total of some six million 2007 Presidential coins are being struck *daily* at the Philadelphia and Denver Mints. Sacagawea Dollars were first struck in 2000, with that one year's BU mintage reaching 767,140,000. They have been struck annually since that time and are still being minted today. The modern American Silver Eagle Dollar program, initiated in 1986 and continuing today, provides both BU and Proof 1-oz. bullion coins. There have been over 147,186,000 BU Dollars as well as over 12,795,000 Proof 1-oz. coins struck to date. Reviewing the U.S. Mint's modern Commemorative Dollar program for the period 1983-2006, there are *nine individual* issues (Date/Mint) that surpass the mintage for the *entire* Peace Dollar series. The Susan B. Anthony Dollars, minted intermittently 1979-1999, realized more than 538,362,000 BU clad coins, along with Proof coinage in varying years. During 1971-1978 more than 686,566,000 Eisenhower BU Copper-Nickel coins and 23,844,000 BU Silver clad were struck. Eisenhower Proof coinage was struck sporadically. The Presidential, Sacagawea and American Silver Eagle Dollars are all on-going series. More coins of each series will likely be struck for years to come.

Total mintage of Morgan Dollars is 656,912,836; total business strike mintage of the Peace Dollar series for the entire 24 dates is 190,577,279. Peace Dollars are a closed series, with no coins of this Type being struck in the future. These facts are mentioned to highlight the point that the number of Peace Dollars struck compared to other Dollar series is small, bringing us to the three factors which determine value:

Availability (supply). Mintage is the starting point. It then must be adjusted to the available number extant, which is difficult to determine with Peace Dollars. Some of the past events altering extant numbers are:

1) U.S. Treasury release of unknown quantities of Peace Dollars sporadically from the 1930's up through the early 1960's. 2) Release of over 400,000 Peace and Morgan Dollars in 1976 in what was known as the Redfield Hoard. 3) Melting of unknown quantities of Peace Dollars in 1979-1980 as silver peaked over $50 for a short period of time. 4) Normal attrition.

Condition. The points in this equation are 1) Luster 2) Original Surfaces 3) Strike 4) Contact Marks 5) Eye Appeal. This subject can not be adequately covered in this article and must be left for another time.

Demand. Demand is self-explanatory. Demand for Peace Dollars has ebbed and flowed. At least two indicators point to renewed interest in Peace Dollars. One is the interest in "VAM's". Specialists Leroy Van Allen and A. George Mallis were the first to assign variety designations to Peace Dollars. Known as VAM numbers, in the early 1980's they recognized a total of 41 different varieties. Today there is a "Top 50" VAM list which is recognized and designated as such by grading services - with 300 popular VAM varieties and over 1,500 known VAM varieties for Peace Dollars! There is even a popular subscription publication, VAMVIEW for VAM collectors. Although in its infancy, just a short time ago there was not enough demand to maintain such a project.

Another driving force in their rising popularity is the grading services' set registries. Coins are sent to PCGS or NGC for grading and inclusion in the respective service's set registry. Collectors compete for recognition by grade, rarity and other factors to have the best Peace Dollar set. These registry sets encourage friendly competition among active collectors and help put collectors together.

Following is a short date by date analysis of the Peace Dollar series:

1921 – 1,006,473 minted. The high relief design made for an attractive coin, but impractical for striking. Fully-struck coins are basically non-existent with well-struck pieces commanding big premiums. Mint luster is important as well. Often come with unappealing grayish cast. Many are toned a light yellow. There is an unstated number of Matte and Satin Proofs. Matte Proofs are easy while Satin Proofs can be difficult to detect from business strikes. Grading services have encapsulated both types of Proofs. 1921's are always a favorite of collectors.

1922 – 51,737,000 minted. Highest minted Silver Dollar – for both Morgan and Peace. Striking problems of the 1921 proved die design modifications were necessary. Design height of both obverse and reverse dies was reduced, alleviating the striking problem but diminishing the design attractiveness from 1922 forward.

There was an unknown number of both Matte and Satin Proof coins struck prior to modification of the high relief dies. As with the previous year, 1922 Satin Proof high relief coins can be difficult to detect from business strikes. Records show ten coins encapsulated by a major grading service as a high relief Matte Proof as of print date of this article. 35,401 high relief business strikes were produced, but not released. Supposedly all business strike high relief coins were melted, but one grading service population report (NGC) states one business strike high relief coin graded AU55 as of print date of this article. Possibly this is an impaired high relief Proof?

All 1922 business strikes from the modified design exhibit a relatively good strike and luster. Many have multiple contact marks. A number also suffer from "water spots", a term assigned to them due to the lack of technical knowledge as to how they were formed. Randomly present on the surface of the coin as a cream-color stain(s), it is generally accepted that during the coining process the planchets were improperly washed and dried after emerging from the annealing ovens and acid bath. This explanation has been open for verification or dispute with proper documentation for years and remains so yet today.

There are both Matte and Satin Finish Proofs struck from the modified design dies. Quantities stated are minimal but unknown. The 1922 remains the most common Silver Dollar, Morgan or Peace, today. Can usually be found priced the same as the 1923, 1924 and 1925.

1922-D – 15,063,000 minted. Obverse usually exhibits full detail but reverse shows some weakness. Decent luster. Surface is usually frosty, but many have multiple obverse die cracks and surface roughness (orange-peel effect) due to excessive die wear. Die cracks could hamper eye appeal, thus lower the coin's grade. Or, lessen desirability of ownership at the least. Excess to moderate contact marks. Some claim to have seen semi-prooflike coins, especially on the reverse. Prices have been relatively stagnate at all grade levels.

1922-S – 17,475,000 minted. Very poorly struck. Reverse especially lacks detail. Luster is lackluster. Usually heavily abraided, but some found with fewer contact marks. Often light polish lines. Redfield Hoard. MS64 has seen favorable price adjustment.

1923 – 30,800,000 minted. Usually well struck, good luster. Frequently heavy contact marks, yet due to number struck, many with moderate contact marks are available. Many suffer from "water spots." Original coins are often golden yellow, but if properly removed (not recommended), the surfaces exhibit a frosty luster. Second most common Peace Dollar available. Favorable GEM price bump (as for 1922, 1924 & 1925).

1923-D – 6,811,000 minted. Most are well struck with good luster. Numerous marks. Usually multiple die cracks. Denver coins usually

CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (*Greysheet*); both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market, such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

have nice strike, but prone to numerous die cracks. One of the tougher Denver Mint issues to find in GEM condition. Another date that had seen a drop in GEM price but starting to recover.

1923-S – 19,020,000 minted. Typically very poorly struck with drab to decent luster. Contact marks can be heavy to moderate. Can be found with obverse die cracks. Is becoming recognized for the rarity it truly is in GEM condition. Well struck coins are truly rare. Redfield Hoard. Prices in MS63 and MS64 might be due for an upward correction.

1924 – 11,811,000 minted. Most are adequately struck. Wide variety of luster from dull to fully frosty. Some have the "orange-peel" effect from excessive die wear. Heavy to moderate contact marks. Underrated coin in GEM. Puzzle as to why it remains priced as the 1922. One of only two dated Peace Dollars to attain MS68 grade at a major grading service to date (and only one time).

1924-S – 1,728,000 minted. Majority poorly struck, but also available with strong strike. Luster usually good. Heavy contact marks. Appearance big improvement over either 1922-S or 1923-S. Redfield Hoard.

1925 – 10,198,000 minted. Well struck with great luster. Fewer contact marks than normal. Many come a light golden color, but when properly removed (not recommended) surfaces are a brilliant luster. Semi-prooflike coins are available. 1925 is the **most** readily available GEM Peace Dollar. Having said that, it is another underrated coin in GEM. Second of only two dated Peace Dollars to attain MS68 at a major grading service to date (and only two times).

1925-S – 1,610,000 minted. Typically weakly struck with adequate, frosty luster. Although, a few come well struck with a matte finish. Multiple contact marks. Redfield Hoard. Has seen a favorable price increase in MS64.

1926 – 1,939,000 minted. Adequate to well struck, good luster. Moderate contact marks. Some have the same golden toning as 1923 and 1925. Little better than common dates in circulated condition, but always popular since they come with better than average eye appeal. Good value in MS63.

1926-D – 2,348,700 minted. Well struck, great satiny luster. Marginal contact marks. Some have multiple obverse die cracks. Another characteristic seen from time to time is weakness in obverse detail of lettering and date near rim. Caused at time of striking; not wear. Most readily available Denver Mint Peace Dollar in GEM.

1926-S – 6,980,000 minted. Better struck than most "S" Mints. Better than average luster. Multiple contact marks. Redfield Hoard. Value has readjusted upward.

1927 – 848,000 minted. Sharp strike and very good luster. Moderate contact marks. Some exhibit that golden toning as mentioned earlier on the 1922, 1925 and 1926. Some prooflike coins exist. Has seen nice price bump in MS63-GEM.

1927-D – 1,268,900 minted. Well struck, good luster. Moderate contact marks in number, but are more severe and distracting than most. GEMs are rare yet value has fallen while MS63 and MS64's have done well.

1927-S – 866,000 minted. Strike is average to weak. Luster is more satiny. Contact marks vary from moderate to heavy. Often a die polish patch on obverse in front of Liberty's head—as made, not damage! Semi-prooflike coins exist. Significant numbers (several BU bags) of this date became available during the Redfield Hoard release. Even with more coins available, GEM values increased slightly and MS64's more than doubled in recent years.

1928 – 360,649 minted. Somewhat weakly struck for a Philadelphia coin, however, for a Peace Dollar, the strike is sharp. Good luster. Usually not many contact marks in number, but marks present are more severe. Low mintage, but apparently many were saved as struck because many Mint State pieces are available.

Although there are other Philadelphia coins as well susceptible to alteration by addition of a mintmark, the 1928 is one of the most prevalent due to its value in circulated condition. Values of VG through MS64 have risen 2½ to 3 times in the past five years.

1928-S – 1,632,000 minted. Weak strike. Ranks among the worst, second to 1923-S for strike. Good luster. Moderate to heavy contact marks. Redfield Hoard. Apparently, coins of this date from this hoard were run through a coin counter which caused obverse facial scrapes and reverse wing feather marks. Reasonable price increases through MS64.

1934 – 954,057 minted. After a short hiatus, Peace Dollars were struck once again. Perhaps for that reason many coins were saved and not put into circulation. Well struck, good luster. Light contact marks. Many have a light golden color over satiny surfaces. Date has shown moderate gain in most grades.

1934-D – 1,569,500 minted. Usually well struck, good luster. Relatively few contact marks, but more severe. Possibly the only Peace Dollar not released in bag quantities during the Redfield Hoard or during the Silver Dollar release of the early 1960's.

1934-S – 1,011,000 minted. Usually well struck, good luster. Light contact marks. Still considered the **Key Date** of the series. However, when you discuss grades of MS65 and higher, there are at least six different dates that surpass it at today's values depending what condition level you are discussing. In GEM, the 1924-S, 1925-S, 1927-S and 1928-S are valued higher.

1935 – 1,576,000 minted. Well struck, good luster. Fully struck coins not uncommon. Light contact marks. Quite similar to the 1934, if not perhaps a little better in eye appeal. Not much movement in value.

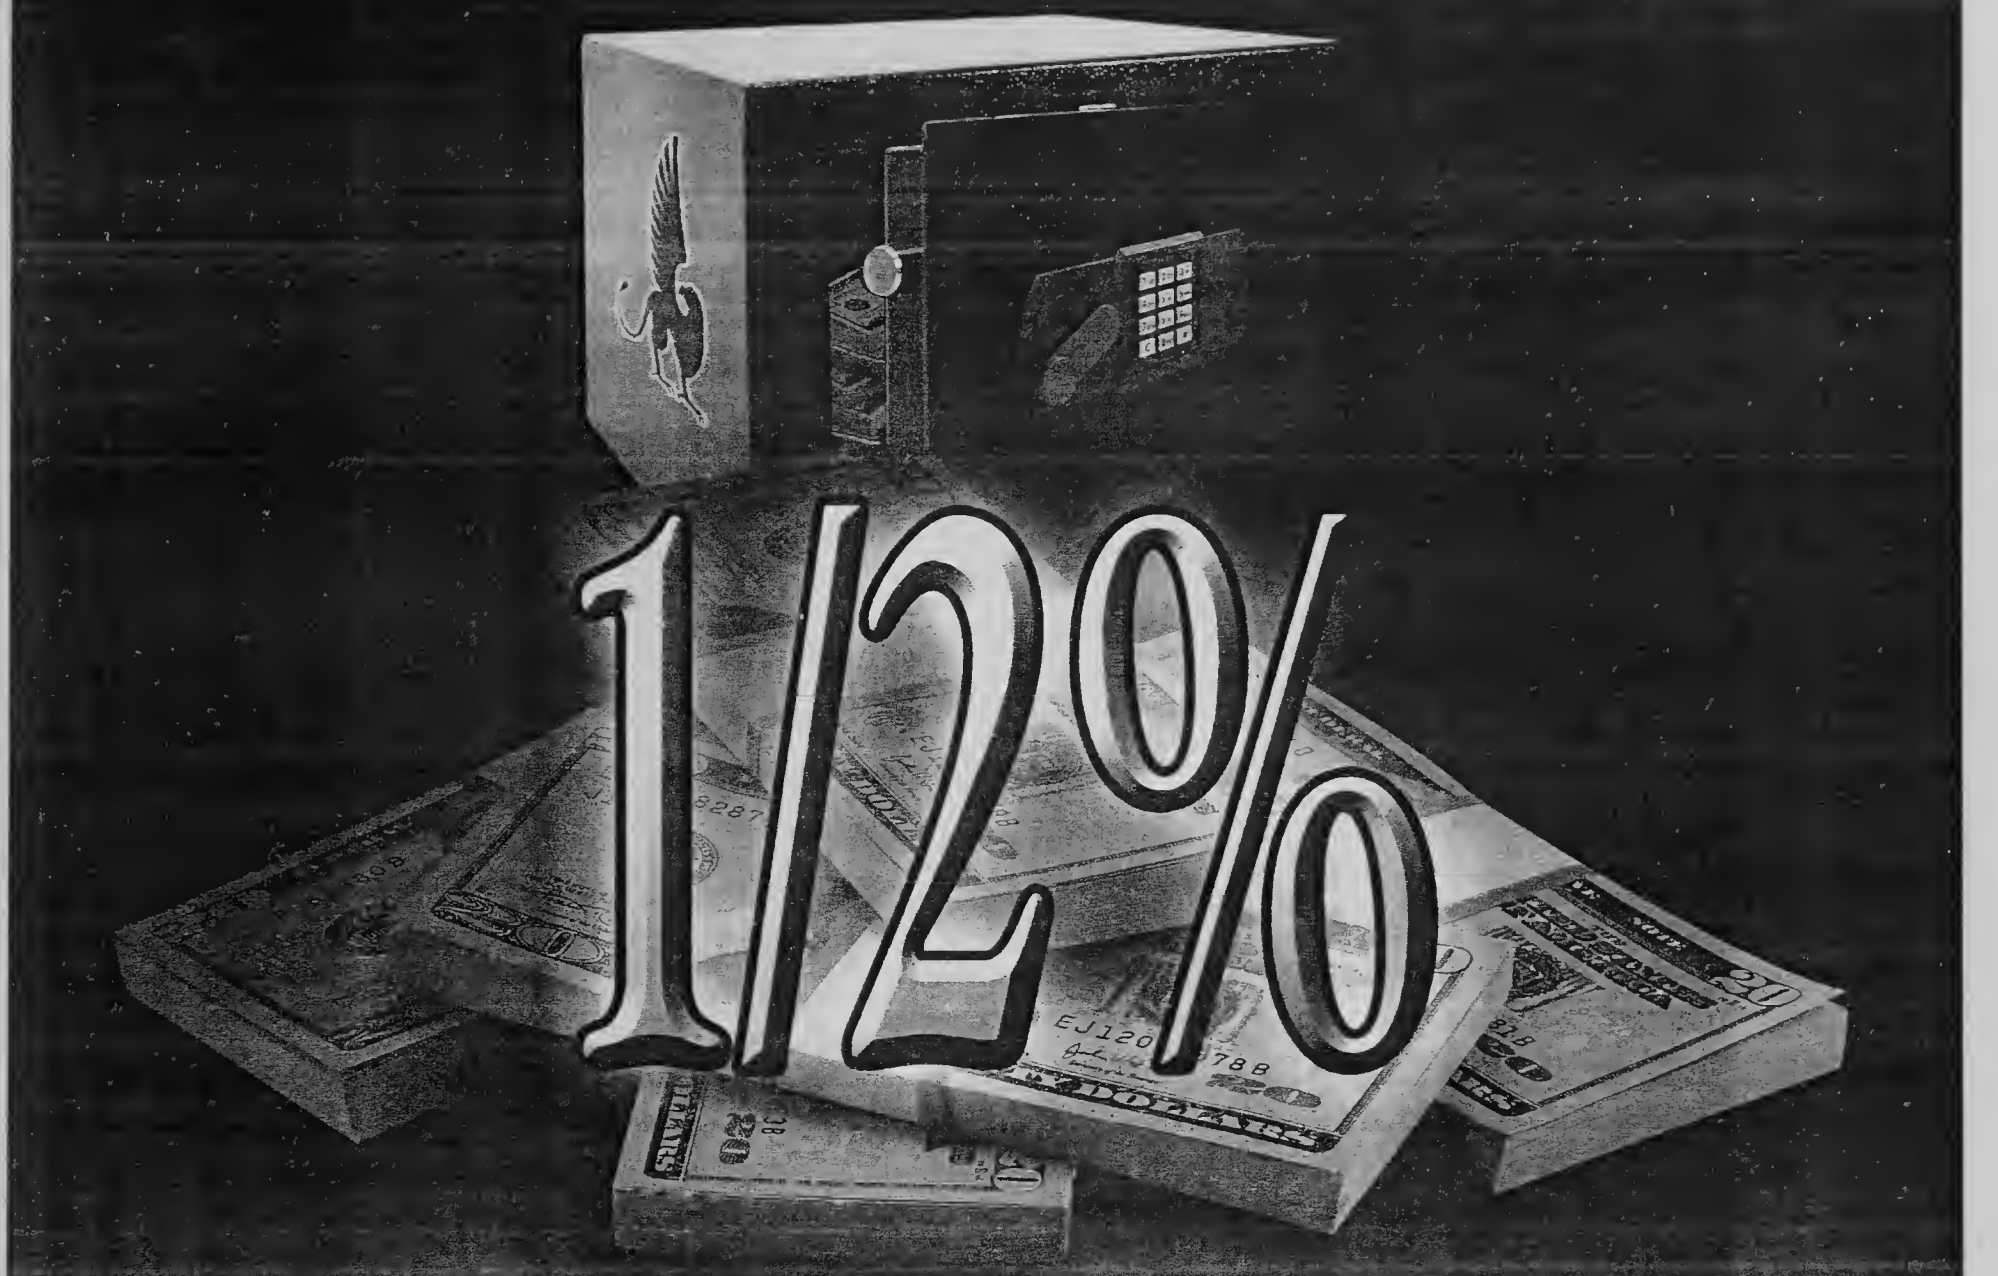

1935-S – 1,964,000 minted. Generally well struck (better than most "S" Mints). Excellent luster. Light contact marks. One of the most consistently high-quality Peace Dollars made. Can be found with prooflike tendencies. Redfield Hoard.

There are ten individual dates that have fewer than 500 coins graded MS65 or higher by the major grading services. These dates are 1922-S, 1923-S, 1924-S, 1925-S, 1927, 1927-D, 1927-S, 1928, 1928-S and 1934-S.

In studying value comparisons for MS60 and higher, there are a number of dates where current CDN Bids are lower today than they were back on March 7, 1980. One just has to recall the market frenzy of that time to understand that phenomenon. For example, Spot Silver was a whopping $35.20 per ounce. Bringing value comparisons closer to today, no CDN Bids for MS64 grades and below are lower today than they were on March 1, 2002. Remember, Silver Spot was low at $4.37 per ounce. However, there are four dates where MS65 Bids are lower today than they were on March 1, 2002. The more one studies the history and reason for the existence of the Peace Dollar and begins to understand the rarity of such a coin, the excitement of the chase for ownership can't help but grow.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices - "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN

NGC. GSA Dollars. Ike Dollars.

The Perfect Companions.

Just one of the ways our rare commitment is redefining the hobby

NGC Grades GSA Soft Pack and U.S. Mint Sealed Ike Dollars in Original Issue Packaging

The perfect companion piece to NGC's certification offering for similar coins in rigid GSA and US Mint packaging, NGC now grades and encapsulates GSA Soft Pack and "Blue Ikes" while still in their original holders of issue.

In order to preserve the integrity and pedigree of their original holders, the entire soft pack holder is sealed in a semi-rigid clear plastic case with an oversize label across the top that includes necessary attribution information, the coin's pedigree, and NGC-certified grade. The case developed for this service is made from the same high-quality, inert materials collectors have come to expect from NGC, and it is thoroughly sealed to guard against environmental hazards and contaminants. These coins are eligible for inclusion in the NGC Registry, and will appear in the NGC Census.

NGC is proud to be an innovator and market leader in producing new products and services that benefit the collector and numismatic marketplace. For more information and for submission instructions, visit **NGCcoin.com**

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646), or online at www.money.org

for over forty years, collectors needing confidential direction and reliable advice have successfully turned to

Julian M. Leidman

Professional Numismatist & Consultant

With complete confidentiality, I will custom tailor my services to fit your numismatic needs. I can assist in the ***formation of your collection***; with more than 40 years as a professional, I can locate the U.S. coins or currency you need. I can provide you with ***confidential advice***, just as I have for collectors, other dealers, attorneys and corporations. I can help you find those hard-to-get coins and develop your collection. I can act as your ***personal representative*** for any numismatic transaction, take advantage of my decades of experience for a maximum commission of 10%. I can also assist in the ***orderly disposition*** of your holdings, to make sure that you receive top dollar in the marketplace. Between buying and selling, I can *appraise* your collection or individual pieces. You know your needs best; contact me for ***expert*** assistance.

America's First Commemorative Dollar

by Anthony J. Swiatek

The conjoined heads of President George Washington and General Marquis de Lafayette grace the obverse of our first Commemorative Dollar coin. Its reverse depicts the equestrian statue of General Lafayette — who is also portrayed on the obverse — riding left and holding an upraised sword pointed downward. Symbolically, if a horse is depicted with two feet up, as seen here, it died on the battlefield. If one foot is up, it was wounded on the battlefield and died elsewhere. Should all four feet be down, it died of a natural death. Located at the base of the statue is the name "BARTLETT." Paul Wayland Bartlett was the sculptor who designed the Lafayette statue erected in Paris. This creation was designed by Charles E. Barber.

The Lafayette Memorial Commission at first requested that Congress authorize the production of 100,000 Half Dollars. However, the Commission later thought a Silver Dollar would make a better souvenir and such was approved on March 3, 1899, by Congress. The Lafayette Dollar became a reality on December 14, 1899, the day of the 100th anniversary of the death of George Washington. When press operator Miss Gleary created our very first Commemorative Dollar, George Washington became the first president to be depicted on our legal tender coinage. At the same instant, General Lafayette became the first person to be represented on both the coin's obverse and reverse.

Using an old coin press which was able to produce 80 coins per minute, the Philadelphia Mint struck 50,000 coins plus 26 pieces for assay purposes in one day. The coin does not bear the actual production date of 1899. The commission wanted the coins to bear the date 1900, but coinage laws did not permit the predating of U.S. coins. To please the Commission, the date 1900 was included within the coin's reverse border inscription. This date, however, does not indicate the minting date, but rather the year in which the Lafayette monument was erected, as well as the year of the Paris Exposition. The coins were then sold at $2.00 each by the Lafayette Memorial Commission.

As noted in a small article in the Philadelphia Public Ledger, "Present at this small Lafayette dollar ceremony were several Mint officials, members of the Lafayette Memorial Commission and a few members of the press. After Miss Gleary removed the first Lafayette dollar struck, she presented it to Mint Superintendent Henry Boyer. Mint Chief Engraver Charles E. Barber then inspected it. It was then shown to Robert J. Thompson, secretary of the Memorial Commission and then given to Director of the Mint George E. Roberts. It was placed in a coin or medal case and brought back to Washington, D. C., by Mr. Roberts, to be given to President William McKinley. The coin was then to be sent in an elaborate $1,000 presentation case, to be given to the president of the French Republic."

Later, Secretary Thompson, traveling aboard the SS *LaChampagne*, bestowed the gift to President Loubet of France on Feb. 22, 1900. I do not know if any of the 12,000 pieces shipped to the commission's headquarters in Paris accompanied Secretary Thompson. The commission refused an offer of $5,000 for the first coin struck, the first to depict a president as well as the first American citizen. It had been previously decided that President McKinley would forward the first strike to President Loubet. It was the government's intention that the coin be used in a special ceremony, held on Washington's Birthday. However, the event occurred on March 3, 1900, in the Elysee Palace. After the striking ceremony was over, the coin press began spewing out 4,800 Lafayette Dollars per hour.

The 1900 LAFAYETTE MEMORIAL DOLLAR was created to commemorate the erection of a monument to General Lafayette in Paris, France, as part of the United States government's participation in the Paris Exposition of 1900.

Four obverse and five reverse dies were used in six die combinations. My view is that several coin presses were used - not the one Merrick press - to strike the 50,000 coin order and in a time period of roughly 10½ hours. Additionally, to my knowledge no die cracks have been seen on any of these Dollars. I had the honor of seeing that first Lafayette Dollar struck housed in what appeared to be a heavily toned casket-like presentation case. The grayish toned piece has a satiny type of surface. It is the Obverse 1, Reverse A variety. Such is buried in the "Musee du Louvre" in Paris. In total, 36,000 pieces were sold. Nearly 1,800 were vended in Paris, but 10,000 were returned to America. As sales came to a halt, fourteen bags, each containing one-thousand Lafayette's, were returned to the Treasury Building, in Washington D.C. Back in 1945, while examining government records, Aubrey Bebee of Omaha, Nebraska, became aware of the existence of this holding. When an inquiry was made, he was informed that the Commemorative Dollars were melted into Silver bullion. We don't know for sure whether the Treasury Department knew the $14,000 lot was worth $140,000 or simply chose not to create problems for themselves — and melted the hoard.

What Circulated or Mint State Lafayette Should You Acquire?

Obviously, such depends on your current financial situation. Let's examine this issue for value and availability in its circulated and Mint States. Much of this popular issue resides in EF-AU through MS64 condition. A large number of the circulated pieces I have encountered over the years have been whizzed (to some degree) or buffed in order to conceal areas displaying a loss of metal or detracting marks or simply polished or artificially toned to dupe (in most cases) the uneducated. I strongly suggest acquiring the said for the joy of collecting, or a circulated coin possessing un-doctored or natural surfaces with no ugly cuts, digs or scratches, nor toned black. Pieces showing no trace of actual wear and grading MS60 or MS61 are underrated and can be rather difficult to locate. This is due to abuse, as well as the coin's rims which offered little protection to the high points (first areas which lose metal due to friction), because of its high relief. Lafayette cartwheels grading MS62 and MS63 should be obtained with less difficulty.

Attractive, eye appealing pieces strictly grading MS64 are not as abundant as is widely believed. One would be surprised at the number of times those attractive identical MS64 Lafayette Dollars were re-submitted to the same and different grading service by the original or second or third owners over the years, in hopes of attaining the upgrade — which never materialized! Why? Bag marks, cuts and scratches in this primary focal area or that area first observed on the coin are too deep, or too long to permit a higher grade. Unfortunately, many identification labels were destroyed and never returned for population deletion. It would certainly help to indicate the issue's true census count. It doesn't matter how flashy or mark free the coin might appear upon inspection. It's those fine hairline scratches located on Washington's portrait, or across the portraits, that many fail to detect or do not want to believe will prevent the coin from grading higher making it

The **CDN MONTHLY SUPPLEMENT** is a supplement to the weekly **COIN DEALER Newsletter** (*Greysheet*); both report the national Dealer to Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Bids reported also consider activity in the certified **SIGHT-UNSEEN** market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The **CDN** may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly **CERTIFIED COIN DEALER Newsletter** (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

worth between $4,000 and possibly $6,000 more! Other times, it is the surface luster which is a bit too washed out, possibly due to just the slightest over dipping which keeps the coin from an upgrade. It could be that the obverse makes the grade, but a bit too many reverse bag marks, or a dig which is quite large and deep, or fine hairlines located on Lafayette's horse or in the field act as the MS65 stopper. Strictly graded alluring MS65 coinage must be labeled **elusive**. The above-mentioned slabbing re-submittal scenario also has affected the loftier grade ratings in a similar manner. Depending on the coins total makeup, MS65 pieces have sold at auction for between $6K and $12K. Beauteous specimens rated MS66 and better will be very difficult to locate and pricey, again, predicated on the Lafayette's eye appeal, originality, type of toning, etc. Auction values have ranged between $10K and $17K. Rated MS67, hammer prices at auction have varied between $51K and $72K depending on who wanted the coin for a registry set, etc. To date, no Lafayette Dollar has been graded higher than MS67.

Luster for this issue will range from almost semi-prooflike, to very flashy brilliant frosty, to bright frosty, to dull frosty. Unfortunately, specimens displaying the noted first two desired surfaces will be infrequently encountered. Those which flaunted a mirrored surface appear to be part of the 14,000 melted specimens. Bright to dull frosty luster is usually the norm. In the attempt to create a more eye-appealing, brighter or better-than-new surface, for the latter two lustrous conditions, pieces were over-dipped in a tarnish removing solution or were deplorably cleaned in some manner, damaging forever their original surfaces.

How Promising is the Future Potential of our First Commemorative Dollar?
POPULATION FIGURES

To date, none have been graded higher than MS67

Date	Service	40	AU58	MS60	MS62	MS63	MS64	MS65	MS66	MS67	MS68	MS69
1900	NGC	2	123	20	344	458	654	178	62	8	0	0
1900	PCGS	14	245	60	409	633	794	229	78	5	0	0

Strike rarely affects the value or grade of this issue. Sharpness of detail on the saddle blanket design and/or the engraving line separating Lafayette's boot from his leg (known as the full boot specimen) and/or the folds in the General's lower coat design which rests on the blanket will typically be lacking, appearing somewhat undefined or indistinct. As noted, neither grade nor value will be affected unless the coin possesses a major weakness on the devices. No error coinage has surfaced to date. Howbeit, let me present you with important information on how to detect existing counterfeit Lafayette Dollars.

Counterfeit specimens will display surface roughness or graininess and roundness of lettering. Look for raised metal spikes or tooling marks above the words "STATES", as well as "THE" of the inscription. On the reverse examine for same below the letter "L" of "LAFAYETTE". Another will flaunt a surface depression on Lafayett's upper neck, just below his lower jaw. The reverse will display a protrusion emanating from the horse's back right leg above its hoof, as well as field depressions. An additional Asian counterfeit looks almost chrome-like, flaunting surface depressions and strike weakness.

Did you ever feel you were numismatically levitating when having the pleasure of examining a very special coin? I did when holding a double struck Brilliant Proof Lafayette Dollar along with the Panama-Pacific $50 Round and Octagonal struck in Silver, without the "S" Mint mark, etc., in a Philadelphia collection back in 1976. Saw the same coins in 1982 at the late Lester Merkin's new York City office housed in the same holders! The Lafayette Proof he believed was one of a possible 10 such pieces struck. I wonder if the unknown person who offered $5,000 in 1899 — which then equated to almost 16 to 20 years of salary for the average blue collar worker — for the first piece struck and turned down was privately presented with 10 or fewer Proof pieces instead. Remember that the president of France was bestowed with the first BU coin struck.

How Can I Determine If My Lafayette Dollar Possesses Some Genuine Wear?

Your obverse primary focal area is the bust of both figures. A loss of metal will initially take place on Washington's cheekbone as a difference in metal texture, looking grayish-white. A lack of metal fill due to insufficient striking force can resemble rub or friction and create what looks like small cuts, plus scar marks on the portraits. If uncertain, check with the knowledgeable when buying such a coin. This is the location that unscrupulous individuals will wire brush (whiz), apply Bondo or car fender putty (which becomes more and more opaque on the coin's surface as the product's molecular structure changes) or buff or lightly polish in an attempt to conceal metal loss, a deep cut, slide marks, a reed mark or a grade-lowering bag mark.

On the reverse the equestrian figure of Lafayette is the first location that we focus upon. This is also the target, but to a lesser degree, of the above noted "doctoring." Ditto the coin's field. A metal loss will first be noticed on the horse's blinder, as the rim offers little high point protection, then on the hindquarter. Bag marks, cuts, digs, reed marks, hairline scratches and abrasions which can easily cause a lowering of the obverse grade, can do likewise to this reverse design. This is especially true when we consider the damage these grade-lowering villains can inflict on those large Silver Dollar-sized exposed Lafayette fields. Also beware of artificially toned raw — or unencapsulated coins which attempt to hide surface marks and "doctoring" as previously noted. Most encountered specimens display a genuine blue and/or sea green iridescent toning, or on rare occasion a rainbow play of colors.

The 1900 Lafayette Dollar which was struck in 1899 is the only Commemorative cartwheel produced until the 1983 Olympic Dollar. On the surface, this issue appears to be undervalued, in grades EF-AU through MS65. This coin is an extremely popular collector coin. (The keywords are "extremely popular"!) It's amazing to hear from collectors about their future acquisition plans, since present levels look very attractive. At present, we are beginning to see a greater interest developing pertaining to the Lafayette varieties which sell for little to no premium. That's not to say a collector wouldn't pay more when completion of the five-piece variety set is desired. Past high spread between grades MS63 and MS64 was $5,000. It was $9,500 between the MS64 and MS65 rating, and $13,000 between the latter and MS66 condition! Howbeit, it's hard to say in what manner history will repeat itself, since our census was much lower.

Better than average future potential in MS63 condition. Very good to excellent possibilities reside in MS64 and loftier ratings for this very popular coin. Pass on the dull, dark, unattractive and arguable offering — even if it declares itself a MS66! Certainly do not buy raw or unslabbed specimens, if you do not know how to grade, unless you have available the input of a knowledgeable coin grader! Beware of the bargain! Seldom do they exist. Do not expect to receive a $3,000 coin for $300 or $900 or $1,500! Seek the advice of a recognized expert in the field, when assistance is needed!

Brand New Just Released 2007
NGC Certified Brilliant Uncirculated

John Adams Dollar

Coin images not to scale.

In 2007, the United States Mint launched the Presidential $1 Coin Program, an ambitious new golden dollar coin series that honors every U.S. President in chronological sequence, beginning with the nation's first president, George Washington. The series will produce and release four coins per year until all deceased Presidents have been honored. In a manner fitting the historic nature of this coin series, several design innovations were implemented to make the Presidential Golden Dollars unique among all United States coins.

The coin's obverse features each respective President's likeness with their name inscribed along the top rim. The bottom rim inscriptions include which number President they were and their term years in office.

The traditional inscriptions normally found on the obverse of circulating coins denoting the mint year and mint mark, along with the mottos "In God We Trust" and "E Pluribus Unum," uniquely adorn the coin's edge.

In place of the traditional "Liberty" inscription, the coin's reverse features a striking rendition of the Statue of Liberty, along with inscriptions denoting "United States of America" and a "$1" legal tender denomination.

These NGC certified, Brilliant Uncirculated treasures are a $5 value, however, we are initially offering them on a first come-first served basis at a below dealer cost price of ONLY $1 per coin. That is only their face value! However, you must order immediately as our allotment is limited and this offer will be withdrawn without notice once our supply is depleted. Order yours today while supplies last

- On May 17th, 2007 the United States Mint issued the new John Adams Presidential Dollars.
- The second coin to be released in the Mint's ambitious Presidential $1 Coin Program.
- The John Adams dollar is the first U.S. coin to ever bear the likeness of the nation's second President.
- John Adams, who was also the nation's first Vice-President, was the first U.S. President to live in the White House.
- During the American Revolution, the Harvard-educated Adams served the upstart nation as a foreign diplomat drumming up critical international support for the recognition of America's independence.
- Certified Brilliant Uncirculated by the Numismatic Guaranty Corporation [NGC] a **preferred** grading and authentication service of Universal Coin & Bullion.
- The Presidential $1 Coin Program is projected to last until at least 2016 with four different Presidential Dollars being released each year until all past and deceased Presidents have been honored.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must have eye-appeal.**

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

SOLD! Before it's sold.

DLRC's Guaranteed Auction Program.
Getting you more money for your coins.

If you're looking for more profitable selling options, try our unique seller's program. Simply consign your coins to one of our weekly Internet auctions at a mutually agreed upon"Guaranteed Price". That value becomes the reserve. As your lots sell in auction you will receive 100% of the hammer price on sold lots. Any that don't sell, you receive the Guaranteed Offer. It's that simple.

Scores of participants have already received between 5% and 200% more than the reserve for their GAP consignments. Liberal cash advances are available.

If you are interested in learning more about this exciting program, please call today

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Coin Market Analysis by Scarcity
Revisiting the Barber & Seated Coin Series

by John Feigenbaum

Back in January 2005 I wrote an article for *CDN Monthly Supplement* titled, "Are Seated & Barber Coinage Ready to Explode?" With the hindsight of two and a half years, it would appear that the fuse on this explosive was longer than I had first anticipated, but I feel more strongly than ever that these, and other long-overlooked series, are a tinderbox waiting to ignite.

For starters, I wasn't all wrong... many of the standout key-dates in series from Flying Eagle Cents to Morgan Dollars have seen their values double and triple over the past five years. It has been no surprise to the numismatic community that these issues turned a nice profit for their owners in the past decade. There is a finite supply of such items, and their popularity appeals to collectors that have been around for decades. But the influx of new buyers in the past 10 years has provided a price tension that demand couldn't supply.

Surprisingly, however, a number of scarce-date issues in the same series as their more famous cousins have waited patiently on the sidelines at the same prices we witnessed in 1990. I refer to these as *second-tier* issues. They are much scarcer than Type coins but not as rare as the key-dates.

Furthermore, an examination of the true great numismatic rarities is also compelling from a value perspective. While more coins than ever are broaching the million-dollar mark, the value of such rarities in comparison to other major collectibles is still compelling.

The remainder of this article is broken down in two parts: first, an evaluation of the different value levels of coins (major rarities; key-date coins; and better-date, or *second-tier* coins). The second part of this article is devoted to an analysis of the Seated and Barber coinage, as these two series are loaded with examples from all three of these rarity areas.

Major Rarities Still Undervalued

The major rarities are, of course, the most exciting aspect of numismatics to the outside world, and also the most likely to be acquired by non-collectors — dare I say the word "investors"? There has been no lull for the major rarities over the past 10 years. In fact, prices just keep rising as the greater economy experiences similar exuberance at the highest level. The hourglass shape of the international wealth curve suggests that wealthy investors have a difficult time investing their money in a diversified manner, and the rarified art market has seen explosive gains, even in the past year. Post-war art (the equivalent of our "modern issues") is off the charts as an Andy Warhol realized an astonishing $71.7 million in May (Christie's). As an artist, Warhol was prolific with many items regularly available for Bidding. A great piece, yes. But unique, certainly not. Collectors are voting with their pocket books, and the popular items with great stories are bringing unheard of results. In rare coins, we feel the same phenomenon is underway, with plenty of remaining potential.

In the month of July, we brokered the sale of the finest known 1894-S Barber Dime (PCGS Proof 66) for a record $1.9 million. This is the same coin we sold in March 2005 (DLRC Richmond Collection Auction) for $1.3 million. The buyer was undeterred by the prior result and felt strongly about this purchase as his motive was part of an overall strategy to shift his assets from the stock market to hard assets.

Steven L. Contursi, of Rare Coin Wholesalers, announced a similar private transaction July 5th of a gorgeous, Gem NGC MS68 1792 Half Disme for $1.5 million. Even though this is a great coin, there are several hundred 1792 Half Dismes known — this being among the very finest. What is happening here? Clearly a case where the valuation of our greatest coins does pale to the buying power of the top consumer. I suspect we will see the few rarities that come up for sale in the next 12 months do quite well.

Key-Date Coins Ready for a Second Run?

Even as I wrote my article in 2005, key-date coinage had already gone through a steady round of price appreciation. Since that writing, levels on coins that had seen sharp price spikes in the years 2002-2004 tended to flatten and, in some cases, decline. 1893-S Morgan Dollars haven't gone down in price but they haven't changed positively in quite some time, either. 1877 Indian Cents, 1909-S VDB Lincoln Cents, 1916 Standing Liberty Quarters, are all similar examples of coins that ran up quickly only to see too much exposure as collectors dumped excess inventory for big profits.

I believe **now** is a very good time to cherry pick through these issues for high quality coins at current levels. One can even justify a small premium for nice pieces, because I fully expect another strong demand cycle to occur in the next 6-18 months. Levels have stayed flat for too long, and I can no longer find enough material to fill customer want lists. Therefore, levels seem destined to rise soon.

Hidden Value in the Second-Tier

Examples of such items could include Carson City Mint issues within the Seated series; New Orleans and San Francisco Mint issues of the Barbers; low mintage dates like 1913, 1914, 1915 (Philadelphia) Half Dollars; and so on. Many of the second-tier issues within all coin series have long been neglected and they are now considerably undervalued in relation to their *key-date* cousins.

In just the past two to three months, I have seen an abrupt recognition of this stored value in the results of our weekly internet auctions. Collectors are quickly recognizing that these issues are underrated and Bidding them up aggressively. In our internet auction ending July 23, we had a consignment of several 1914-S Barber Quarters in VG-VF condition. (The 1914-S is an ideal example of a second-tier better-date coin because it's a low mintage issue within the series, and Barber Quarter collectors are well aware of the difficulty in finding a problem-free example.) In this sale we offered two NGC graded VF examples which were very nice, solid coins but not undergraded or otherwise mis-attributed. The reserve was a fair $210 and the winning Bidder would have to pay a 15% buyer's premium (BP). I fully expected these would bring in the neighborhood of $275-325 each, before BP. But I was shocked to see over a dozen Bidders compete to hammer prices of $725 and $850. *CDN Monthly Supplement* Bid for these coins is $270! Something is afoot, and this phenomenon is not limited to 1914-S Quarters in VF. We've seen Seated coinage in the "collector" grades going nuts over the last few months. There simply isn't enough material to satisfy collectors.

An Examination of the Seated & Barber Series

I have always been a huge fan of the Liberty Seated and Barber coin series. The ratio of scarce dates to common dates is huge. If one removes the handful of common, or Type coins from the Barber Dime series, more than half of the remaining issues are genuinely tough to rare to locate in higher grades (VF-MS67). Even some of the Type coins can be elusive in higher grades as their high mintages didn't entice collectors of the day to hoard issues.

The **CDN MONTHLY SUPPLEMENT** is a supplement to the weekly **COIN DEALER Newsletter** (*Greysheet*); both report the national Dealer to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading **MUST ADHERE** to the current grading standard. Bids reported also consider activity in the certified **SIGHT-UNSEEN** market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The **CDN** may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly **CERTIFIED COIN DEALER Newsletter** (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

For decades, these series had enjoyed quiet anonymity among their more popular cousins (like Walking Liberty Half Dollars, Morgan Dollars, $20 Saint-Gaudens, etc.). There are several reasons that these series have been overlooked. For starters, the Seated Dime, Quarter and Half Dollar issues spanned a long time. Depending on the issue, these coins were minted anywhere from 1837-1891, with over 110 coins each in the basic business strike sets. (Seated Half Dimes are the most accessible — with the fewest number of difficult coins — if you discount the unique 1870-S.)

Additionally, the coins are quite scarce, and some unknown in Mint State grades, requiring the collector to have deep pockets, as well as a great deal of patience. Many of the coins do not come up for sale for years at a time. The Seated Quarter series is home to, among other rarities, the 1873-CC, No Arrows. Only five examples are known of this issue. In the very short Twenty-Cent series, the 1876-CC is rare enough (with 12-15 known) to intimidate most seekers.

The Barber series are actually much more attainable in Mint State than their Seated counterparts. Only the Barber Quarter series has issues that require the buyer to spend five figures to complete a set in MS60 — the 1901-S. There are key-dates in all three sets, but the sets are challenging and rewarding to complete. Unlike twentieth century series, like Buffalo Nickels and Mercury Dimes, these sets require patience over money. A collector once told me that he was taking a break from Morgans because he ran out of money too quickly. That's a rare complaint from Barber collectors. From them, you are more likely to hear that they cannot find enough to suit their budget! We tend to consider a Barber issue "common" if the population in MS65 is 10 or more coins. In the Morgan Dollar series, that would be a rarity, worthy of $100,000 or more.

Let's compare the 1895-O Morgan Dollar with the 1895-O Barber Dime. There are 226 total Mint State coins graded within all designations of the Morgan issue (PCGS and NGC combined) and CDN Bid values range from $12,800 in MS60 to $160,000 in MS65. In contrast, the Dime, has a total Mint State population of 50 coins, Bid values of $4,400 in MS60 and $15,000 in MS65. Collectors and investors alike are starting to appreciate the potential hidden in these other series.

Below, you will find some basic analysis for each of the Seated and Barber series discussed here, with the pros and cons to consider before undertaking the challenge of assembling a collection.

Liberty Seated Half Dimes

Our favorite "entry level" Seated set. Very few impossible dates in this set, but still quite a challenge. Try to buy as many dates in Mint State as possible, and the keys in the best grade you can afford/find.

Favorite Dates: 1846, 1853-O No Arrows

Unique Coin: 1870-S

Liberty Seated Dimes

A wonderfully challenging set, with some very tough dates, but still nothing out of reach in lower grades. Don't overpay for the overrated 1844 which has been hoarded.

Favorite Dates: 1860-O, CC's from 1871-1874, 1885-S

Unique Coin: 1873-CC No Arrows

Barber Dimes

A great set for the intermediate collector who seeks a long-term challenge. Complete sets in matched grades will take a year or two to complete. We recommend that collectors seek the two major varieties of the 1893/2 and Micro "O" as an additional and very relevant part of the set.

Favorite Dates: 1894-O, 1895-O, 1893/2 & 1905-O Micro O (for varieties)

Major Rarity: 1894-S Branch Mint Proof

Twenty Cent Pieces

A great mini-challenge, especially if you avoid the 1876-CC rarity. Most collectors assemble all issues in Mint State and Proof. The 1876-CC is a great rarity with a great story that transcends the series; it is one of my personal all-time favorite coins.

Favorite Date: 1877 Proof only

Major Rarity: 1876-CC

Liberty Seated Quarters

Truly a set for the advanced collector — a challenge which will require patience and resources. Only a handful of complete high grade sets have ever been assembled. Many scarce and rare dates.

Favorite Dates: 1842 Small Date (Proof only), 1854-O Huge "O", 1860-S, 1870-CC, 1871-CC, 1873-CC No Arrows & With Arrows, 1891-O (in Mint State)

Major Rarity: 1873-CC No Arrows (5 known)

Unique Coin: 1866 No Motto Proof Only

Barber Quarters

A great set for the intermediate collector who seeks a long-term challenge. Like the Barber Dimes, and Halves, complete sets in matched grades will take a year or two to complete. No major varieties to contend with.

Favorite Dates: 1896-S, 1897-S, 1901-S, 1909-O, 1913-S

Major Rarity: None

Liberty Seated Half Dollars

An endeavor for the intermediate-advanced collector who can expect to spend a few years matching a nice set. Scarce dates abound, yet completion is not as difficult as the Quarter or Dime sets.

Favorite Dates: 1853-O No Arrows, 1855-S, 1870-CC, 1878-S

Major Rarity: 1853-O No Arrows

Unique Coin: 1866 No Motto Proof Only

Barber Halves

A great set for the intermediate collector who seeks a long-term challenge. Like the Barber Dimes, and Quarters, complete sets in matched grades will take a year or two to complete. We recommend that collectors seek the major varieties such as the 1892-O Micro "O" as an additional and highly desired part of the set. It is quite rare in Mint State. The 1904-S Half is one of our all-time favorite value coins in numismatics.

Favorite Dates: 1892-O Micro "O", 1904-S

Major Rarity: None

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

Now Accepting Consignments for our next featured Internet auction...

THE EMERALD SALE

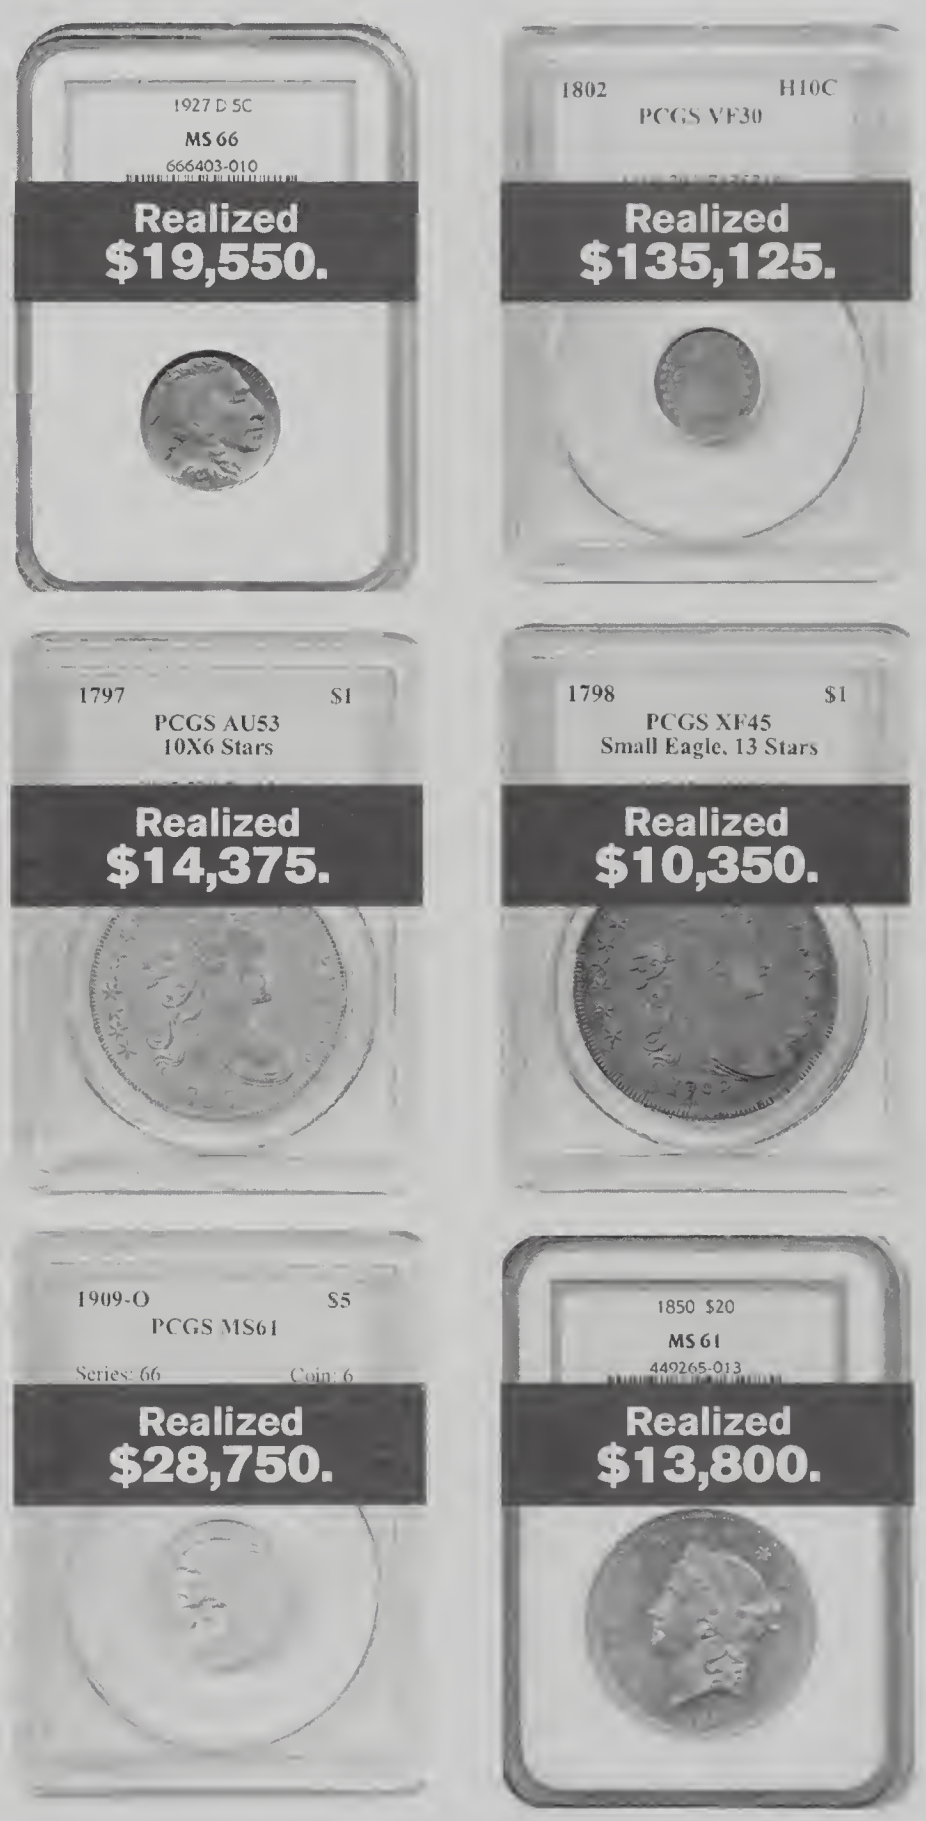

Our initial Collector's Choice Internet Auction closed with 687 lots realized an impressive $680,398.00 in total sales including the 15% buyer's premium. We would like for you to be a part of our next Emerald Sale. Consign today!

CONSIGNMENT DEADLINE: *September 21, 2007*

KEY DATES TO REMEMBER:

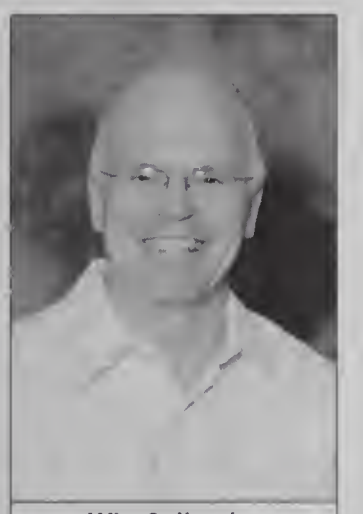

- Bidding open from October 10 through 22
- Settlement checks issued on November 13
- Consign through our Guaranteed Auction Program™
- Cash advances are available

Don't delay! *Contact Win Callender or John Brush today for more details on being a part of this exciting two-week online auction.*

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646), or online at www.money.org

The Little "CC"

Collecting MS65 Carson City Morgan Dollars

by Eric Brothers

Carson City: two little words that paint big pictures of the Wild West, the Comstock Lode, and big Silver and Gold coins that clang when you drop them on a bar in a saloon. The discovery of the Comstock Lode — the first big deposit of Silver ore in the U.S. — inspired the Silver rush of 1859. Prospectors swarmed into Nevada, scrambling to stake their claims. The town of Virginia City sprang up as a direct result of the Comstock Lode. Mining camps soon dotted the landscape; they became centers of enormous wealth. Between 1859 and 1878, the Comstock Lode yielded $400 million in Gold and Silver. Legislation authorizing the building of a U.S. Mint facility at Carson (as it was known at the time) passed both houses of Congress in March of 1863. Probably due to the Civil War, construction did not begin until three years later. The building of the Mint was a slow process, and took an additional three years (late 1869) before coining machinery could be brought to Carson.

David Bowers writes, "Without doubt, the Carson City Mint evokes images of the Wild West, gambling in the mining districts, and more — part of American tradition and drama, of course, but at the same time quite true." By the 1870's the Silver commercial centers, in and around Virginia City, Nevada, were struggling. Bowers tells us that Silver "had become more plentiful than anyone would have imagined a decade earlier." Not enough Silver was being made into Trade Dollars. The industry was slowly dying.

The "Silver Barons" of Nevada, however, had two heroes in Congress. Riding into Washington, D.C. on white horses were Representative Richard P. Bland of Missouri and Senator William B. Allison of Iowa. Their legislation — the Bland-Allison Act — was passed in Congress on February 28, 1878, over the veto of President Rutherford B. Hayes. Under this act, the Treasury Department was mandated to purchase $2 Million to $4 Million of Silver bullion each and every month. All of this Silver was to be made into Silver Dollars! One of numismatists' favorite series to collect is the Morgan Dollar. Many people like these big and heavy coins, which have been hoarded by collectors over the years. The creation of this coin was a direct result of Bland-Allison. Designed by George T. Morgan, the big coin weighs in at 412.5 grams and is .900 Silver. It was minted from 1878 to 1904 and then again in 1921. Carson City Morgan Dollars form a short sub-set due to the limited history of the "CC" mint: they were minted there from 1878 to 1885 and again from 1889 until 1893.

The rich legacy of the "CC" Mint includes rare Morgan Dollars that are scarce, as well as rarities that are not scarce. Let's call them "common rarities." Huh? It's a long story, but I'll try to make it short. Some of the mintages are relatively large, while others seem almost impossible to acquire. First, a little background. Silver Dollars were used in everyday commerce, but the number produced far exceeded those actually needed. Thus hundreds of millions of Morgan Dollars sat around in 1,000-coin bags in vaults. These vaults were deep within the bowels of the different Mints and the Treasury in Washington.

The Treasury release saw Silver Dollars being sold to consumers at face value. People could buy a single coin, a dozen or a 1,000-coin bag. The Treasury halted the distribution in March of 1964. By that time, however, there were only **2,937,693** Silver Dollars left. Most of them were Brilliant Uncirculated Morgan Dollars with the little "CC" mintmark of the Wild West.

What the Treasury release started, the General Services Administration (GSA) finished. GSA coins are housed in a large rectangular plastic case with black felt. Four mail Bids were held by the GSA from October of 1972 to June of 1974. That emptied the vaults of two million "CC" (and some other) Morgan Dollars. The final 977,902 "CC's" were sold via GSA mail Bids during the speculative Silver madness of 1980.

Building a collection of "CC" Morgan Dollars can be both challenging and expensive. The least expensive set to put together would be a date run in Very Good.

CC Morgan Dollars	VG Bid
1878CC, 1882CC, 1883CC, 1890CC, 1891CC	$75
1884CC	$95
1879CC Capped Die, 1880CC	$130
1879CC, 1880CC Rev '78	$135
1892CC	$155
1893CC	$200
1881CC	$305
1885CC	$450
1889CC	$525

One problem associated with building this set is that two of the coins — 1885CC and 1889CC — are two of the rarest Morgan Dollars in circulated grades! For those collectors with patience and the necessary resources, however, a complete Mint State 65 collection (not including varieties, except for those of 1879CC and 1880CC) would be a long-term and rewarding project.

1878CC (mintage 2,212,000) This coin is easy to locate in MS65. A combined total of 2,401 have been certified by NGC and PCGS in MS65 (all NGC population figures cited in this article are MS65 and GSA MS65; PL and DMPL coins are not included). This date is $1,125 Bid. The GSA population is 60,993 (2.75% of the total mintage).

1879CC (mintage 756,000) This is one of the truly difficult dates in Mint State condition. Only 129 of the 1879CC's have been certified by NGC and PCGS in MS65. This coin is a challenge to find and is Bid at $21,500. Only 14 of the Capped "CC" die variety have been encapsulated by both services. The Bid jumps with this variety: it is $33,500. The GSA holding for the 1879CC is 4,123 (0.55% of the original mintage).

1880CC (mintage 591,000) A big batch of this date (4,061, including varieties) have been certified and graded MS65 by NGC and PCGS. What makes it relatively affordable ($1,100 Bid) is its GSA population: a sizable 131,529 (22.3% of all coins Minted). This date becomes more expensive, however, in the **Reverse of 1878** varieties **(1880/79CC and 8/7)** with 690 examples certified by both. Expect to pay $2,300 wholesale for the 1880/79CC Reverse of '78.

1881CC (mintage 296,000) A classic rarity — not! The second lowest minted Carson City Morgan Dollar is very affordable in MS65. Plan to spend around $740 and up for a nice example. This one would qualify as a "common rarity" that I wrote about above. The NGC and PCGS population in MS65: 6,018. The GSA population was a whopping 147,485 (49.82% of the total mintage).

1882CC (mintage 1,133,000)

1883CC (mintage 1,204,000)

1884CC (mintage 1,136,000)

This is the trio of common and quite affordable "CC" Morgan Dollars. Here are the MS65 certified populations at NGC and PCGS: 1882CC (7,234), 1883CC (11,392), and 1884CC (11,101). The GSA holdings were quite significant. For 1882CC: 605,029 (53.4% of the original mintage) 1883CC: 755,518 (62.75% of the total mintage); and 1884CC: 962,638 (84.73% of the original mintage). All three together Bid $995 in MS65

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly **COIN DEALER Newsletter** (*Greysheet*); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Bids reported also consider activity in the certified **SIGHT-UNSEEN** market, such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly **CERTIFIED COIN DEALER Newsletter** (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

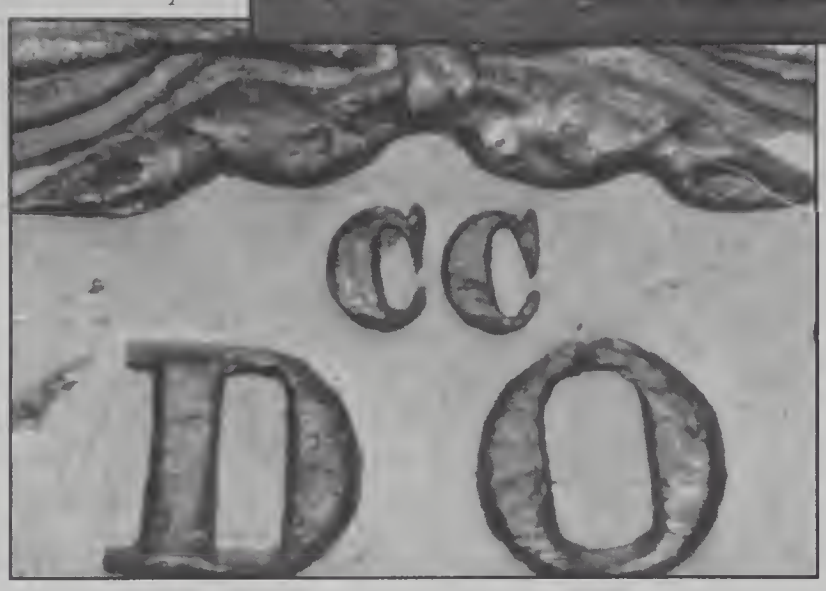

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

1885CC (mintage 228,000) A great rarity? Bah, Humbug! This is just another "common rarity." The lowest mintage of all the "CC" Morgan Dollars is almost a bargain in MS65! Plan to spend between $925 to $1,050 for a sparkling white example. The reason for the low price? Virtually all of these coins were bagged and stored, not paid out, which created an instant rarity! Bowers tell us that many bags were paid out in the 1950s. But the GSA holdings tell us the real story: 148,285 pieces (65.03% of the original mintage). The number of 1885CC coins certified in MS65 by NGC and PCGS: 5,375!

1889CC (mintage 350,000) This is the key — the "Holy Grail" — of the "CC" Dollars in virtually any condition! The number certified by NGC and PCGS in MS65: 5. There is only a grand total of 66 encapsulated by NGC and PCGS in MS64. Bowers tells us that, "The 1889CC Dollar is one of the great keys in the Morgan series, and among Carson City issues it is far and away the most elusive." If the truly intrepid collector is lucky enough to get one for Bid in MS65, it will cost $275,000. In MS64, however, the Bid is only $42,500. Known GSA population: 0.

1890CC (mintage 2,309,041) This is the largest mintage of all the "CC" Morgan Dollars. Don't let the high mintage, however, lull you into false hope of an easy acquisition. Bid for the 1890CC in MS65 is $5,000. How did that happen? Most of the coins were paid out by 1957 and placed into circulation. The number of examples certified by NGC and PCGS in MS65: a lowly 272. GSA holdings were only 3,949 (0.17% of the original mintage).

1891CC (mintage 1,618,000) Despite the 1.6 million coins minted, it will take about $3,400 to secure a MS65 example. Many 1891CC Dollars were placed in circulation early on, providing a vast amount of worn out coins for collectors. NGC and PCGS has certified 531 of these in MS65. The GSA held only 5,687 pieces (0.35% of the total mintage).

MS65 CC Morgan Dollars	9/03 Bid	9/07 Bid	% Change
1878CC	$945	$1,125	+19%
1879CC	$13,800	$21,500	+55%
1879CC Capped	$33,500	$33,500	N/C
1880CC	$735	$1,100	+50%
1881CC	$510	$740	+50%
1882CC	$375	$370	– 1%
1883CC	$290	$315	+ 9%
1884CC	$265	$310	+17%
1885CC	$675	$900	+33%
1889CC	$210.00	$275.00	+30%
1890CC	$4,150	$5,000	+20%
1891CC	$2,500	$3,300	+32%
1892CC	$5,300	$7,300	+38%
1893CC	$35,000	$57,500	+64%

1892CC (mintage 1,352,000) This is yet another high-mintage coin that is a scarcity in MS65. Many of them were released into circulation in 1892. The number of coins in government vaults numbered in the tens of thousands, not the hundreds of thousands, as was the case with the 1885CC coins. Bowers tells us that "many bags were paid out over a long period of years, including in 1926-1927, accelerating in the late 1940s and early 1950s. Most of these went into circulation." In 1955, about 50 bags were sold. Bid is $7,300, and NGC and PCGS have encapsulated 426 in MS65. GSA population: 1.

1893CC (mintage 677,000) This coin marked the end of an era; it was the last "CC" Morgan Dollar struck. Bowers tells us that, "surviving pieces are much loved, much desired by numismatists." As it is the number two rarity in the series after the 1889CC, plan to dig deep for an MS65 example: Bid is $57,500. NGC and PCGS has certified 14 in MS65. In MS64, however, they have graded 556 of them with a $9,250 Bid. GSA holdings: 0.

Be prepared to pay a premium for several of the "CC" Morgan Dollar rarities, especially the 1879CC, 1889CC, 1892CC, and 1893CC. Some of these rarely come to market in MS65 (or even MS64), so it would be a good idea to contact the major auction houses around the country to see if any will appear on the block in the near future.

Do you like color on your coins? Attractively toned or rainbow-toned "CC" examples can be had at a premium. The price of toned coins has no guidelines; it is based upon market forces that vary from dealer to dealer, and collector to collector. As a dealer-collector of such coins, I can tell you that some toned coins go for crazy prices while others are almost "stolen" by the buyer.

Perhaps you do not have $300,000 to spend on an MS65 1889CC Morgan Dollar. What is a collector of MS65 "CC" Morgans to do? One option is to put all of your eggs in one basket: buy one great "CC" MS65 Morgan Dollar in a PCGS or NGC slab. Another approach would be to purchase the common and affordable trio of "CC" Dollars in MS65: 1882CC, 1883CC and 1884CC. Why not select one (or both) of the lowest mintage dates of 1885CC and 1881CC? Both are "rarities", but not scarce, and as above are affordable in MS65. Attractively toned or rainbow-toned examples come at a premium, but are more affordable in the common dates (1882CC, 1883CC, and 1884CC).

The 677,000 Morgan Dollars of 1893 were the last coins produced at the "CC" Mint. "By direction of the secretary of the Treasury, coinage operations at the mint at Carson City was suspended on June 1, 1893." Why was there a need to close down this Branch Mint? The annual report of the Director of the Mint tells us, "The mint at Carson City being of limited capacity the expenses for coinage were much greater at Carson than at San Francisco." Thus ended an exciting and colorful chapter in numismatic history. The Mint at Carson City is now a museum, but there are plenty of "CC" Morgan Dollars to collect and study. Pick one up and take a close look at it. Do you hear the saloon doors swinging open? Can you smell the whiskey?

NGC Certified Brilliant Uncirculated Thomas Jefferson Golden Dollar

$5 Value Now Only $1* Free Shipping

In 2007, the United States Mint launched the Presidential $1 Coin Program, an ambitious new golden dollar coin series that honors every U.S. President in chronological sequence, beginning with the nation's first president, George Washington. The series will produce and release four coins per year until all deceased Presidents have been honored. In a manner fitting the historic nature of this coin series, several design innovations were implemented to make the Presidential Golden Dollars unique among all United States coins.

The coin's obverse features each respective President's likeness with their name inscribed along the top rim. The bottom rim inscriptions include which number President they were and their term years in office. The traditional inscriptions normally found on the obverse of circulating coins denoting the mint year and mint mark, along with the mottos "In God We Trust" and "E Pluribus Unum," uniquely adorn the coin's edge. In place of the traditional "Liberty" inscription, the coin's reverse features a striking rendition of the Statue of Liberty, along with inscriptions denoting "United States of America" and a "$1" legal tender denomination.

These NGC certified, Thomas Jefferson Dollars are a $5 value, however, we are initially offering on a first come-first served basis at a below dealer cost price of ONLY $1 per coin. That is only their face value! However, you must order immediately as our allotment is limited and this offer will be withdrawn without notice once our supply is depleted.

The Numismatic Guaranty Corporation [NGC] is a **preferred** grading and authentication service of Universal Coin & Bullion.

Thomas Jefferson / President 1801-1809 / Democratic-Republican

- On August 16, 2007 the United States Mint issued the new Thomas Jefferson Presidential Dollars, third in the series.
- Drafted Declaration of Independence at age of 33.
- The nation's first Secretary of State in the Washington administration and served as Vice-President under John Adams.
- Negotiated the Louisiana Purchase and commissioned the Lewis and Clark Expedition to explore the territory.
- Known as the "Sage of Monticello" and his vast library later became part of the Library of Congress.
- After the end of his term, Jefferson moved to Monticello, VA working in neighboring Charlottesville to establish the University of Virginia which opened in March 1825.

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646), or online at www.money.org

What Constitutes an "Original" Dahlonega Gold Coin

(and Why is That Important)?

by Carl N. Lester

I recently responded to an e-mail inquiry relating to the coloration and originality of Southern Gold coins, from my experience base as a Dahlonega specialist. The gentleman posing the questions had recently read my article entitled, "The Coloration of Dahlonega Gold Coins." As the term "**original**" is used quite often in the numismatic press these days, in both articles and advertisements, I thought my reply might be of interest to a larger audience.

Question 1): As I currently understand it, the deep orangeish toning I see on some old Gold coins is a result of the Copper alloy that was mixed with the 900/1000 parts Gold. Does the Silver tone as well? Is the "green gold" color in some Southern Gold coins a result of the Silver toning, or was that the original color fresh out of the Mint?

Answer: As I mentioned in my article, a Gold coin with a high Copper content in the alloy will tend to be orange in color. A significant amount of Silver in the alloy will make the color more naturally gold, which some have termed "green gold." These characteristics are also true of freshly minted coins. I think this is why the U.S. Mint decided to put Silver in the American Eagle Gold bullion coins (in order to "tone down"—no pun intended—the effects of the Copper.) The American Eagle Gold bullion coins contain 3% Silver and 5.33% Copper by weight, according to *A Guide Book of United States Coins,* by R.S. Yeoman. I recall that the Mint had received some criticism that the American Arts 1980 Gold medallions were too orange in color because they were alloyed with Copper only, no Silver.

Both Copper and Silver are very **reactive** metals, unlike Gold, which is a noble, non-reactive metal. Both Copper and Silver (used as the alloy) will affect the color of freshly minted Gold coins, as described in my article, but they will also affect the toning that results as the coins age. The coloration of the toning is affected not only by the composition of the alloy, but by the environment in which the coins are stored and thus the substances that are allowed to react with the alloy. Obviously, this is a complex situation and is not easy to answer for all cases. As an example, suppose we had a "time machine" and could take 10 freshly minted Dahlonega Gold coins of a given year and subject them to different environments, undisturbed for 100 years. It would not surprise me to find that those 10 coins did not all look the same 100 years later.

We also know, based on the non-destructive analysis referred to in my coloration article, that Dahlonega Gold coins varied in the relative amounts of Copper and Silver in the alloy. Of the coins analyzed, the Copper content ranged from 8.7% to 5.0% by weight, with a corresponding Silver content of 1.3% to 5.0%. Stated another way: of the Dahlonega coins analyzed, the Copper:Silver ratio in the alloy varied from 6.7:1 to 1:1. Thus, in addition to the various ways Dahlonega coins could be stored after minting, and the substances with which these reactive metals came in contact, the relative amounts of Copper and Silver in the alloy varied widely as well. The combination of these situations would thus determine not only the original coloration, but also the subsequent toning of a given coin.

Question 2): I'm trying to learn to recognize "original" Gold skins. Any advice on the best way to do this? I've found a lot of pictures of old Gold coins that really don't look the same "in person."

Answer: Even though there is a lot of variability, as described in my answer to your first question, I still think we can make some general observations on the way an original Dahlonega Gold coin should look. I have been collecting Dahlonega Gold coins for over 25 years and have looked at hundreds of pieces. I also have a number of pieces in my collection that I consider to have 100% original surfaces, and I use these pieces as "benchmarks" for evaluating potential purchases. (Side bar: in my opinion, a coin doesn't have to be 100% original in order to be attractive and desirable. It is one of several factors to consider when evaluating a coin for purchase, although in my opinion, a very important one. I would advise collectors to search for coins with at least a significant amount of originality, although it is getting tougher and tougher these days.)

In general, it has been my experience that a fully original Dahlonega Gold piece has the following characteristics, which I call "the look":

(A) Tends to have a mellow appearance, as opposed to being bright and shiny.

(B) Has a crusty, or even dusty, appearance. This sounds a bit odd at first, but once you have seen a crusty, original piece, you will know what I mean.

(C) Sometimes has a "hallmark" of originality, such as a Copper toning spot.

(D) Sometimes has traces of "dirt" (for lack of a better term) embedded in the coin's devices, especially on a piece that has seen some circulation.

(E) Tends to have a natural (as opposed to an artificial) appearance.

(F) For the higher-grade pieces, usually has some luster remaining. This may seem like a "no-brainer," if not for the adverse effects of dipping. The worst cases of dipping involve coins which have been so over-dipped they look "washed out" and devoid of luster as well as original coloration, even on high-grade pieces. I (and others) have also used the term "lifeless" to describe these over-dipped coins.

(G) As mentioned above, the color of an original piece can vary, based on the Copper:Silver ratio contained in the alloy and also the substances with which the coin has come in contact in the intervening years since minting. Having said that, I have found that an original Dahlonega Gold piece can have color

CIRCULATION & ADVERTISING Betty Morris

The **CDN MONTHLY SUPPLEMENT** is a supplement to the weekly **COIN DEALER Newsletter** (*Greysheet*); both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Bids reported also consider activity in the certified **SIGHT-UNSEEN** market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The **CDN** may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly **CERTIFIED COIN DEALER Newsletter** (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

which varies from green gold, signifying a lower Copper:Silver ratio, to natural gold with orange highlights, to coppery russet which would likely have a higher Copper:Silver ratio.

(H) An original piece as described in the previous line also sometimes has delicate "highlights" of color that vary from coin to coin. I have seen highlights varying from reddish/rose to russet to orange to green to gunmetal blue, and probably others. We know Silver coins tone all colors of the spectrum, but with Gold coins, it tends to be much less pronounced, and the colors tend to be not as vivid. A word of caution: if it doesn't look natural, it probably isn't. Natural coloration has a certain richness that can't be imitated. I have seen some outlandish artificially colored coins over the years. One of the latest tends to employ an unnatural, bright orange coloration. I suspect the "coin doctors" are now re-coloring those previously mentioned over-dipped coins, in order to try and restore some degree of salability.

Since I brought up the subject of coin doctors, perhaps I should also mention some of the techniques they use in order to improve a coin's appearance. These can vary from a gentle cleaning, to the aforementioned dipping with a chemical solution that attacks the original surfaces and coloration, to artificial toning as described above, to application of substances to cover up scratches and other imperfections. The latter can usually be spotted by viewing the coin in various lighting, including a halogen light if available, and by tilting the coin so one may view it at various angles. The foreign substance sometimes looks hazy or cloudy, especially as it ages, but can be very deceptive when viewed at certain angles and under some lighting conditions—the haze or cloudiness almost seems to go away. In conjunction with examining coins carefully, the best way to guard against coin doctors is to view as many coins as possible, learn to recognize originality, and use it as a benchmark. As "good" as these coin doctors are, I don't think they've been able to come up with anything as good as what Mother Nature accomplishes over a long period of time.

As far as trying to identify an original coin by the photograph, for example, via a web site or in an auction catalog, that is a difficult task at best. Part of this is due to the way photographs can be manipulated (i.e., enhanced) in order to improve attractiveness, using *Photoshop* or similar software. I have been amazed numerous times when viewing auction lots at the disparity between the actual coin and the photograph of the coin in the auction catalog. In those cases where there is a big difference, the photo almost always looks better than the actual coin. Thus, I feel there is no substitute for viewing coins in person or via a trusted agent. However, I can usually tell from a photo whether or not I would care to look at the coin in person. In other words, I can sometimes eliminate a coin from further consideration just by looking at the photo.

Some final thoughts to the *Coin Dealer Newsletter* readership concerning originality and its importance in today's numismatic marketplace. I agree with a well-known rare Gold specialist who recently wrote that we are in a two-tier Dahlonega Gold market. In my opinion, these two tiers consist of: (1) unoriginal coins, many of which are overgraded, and (2) original coins, which tend to be conservatively graded, and which are much less available in the marketplace.

The simple fact is that most serious Dahlonega Gold collectors want original coins, and it seems originality is more important than numerical grade or price. Even though I've been in the hobby a long time, I can still get excited about a well-circulated Dahlonega coin with nice, original surfaces, especially if it is a better date. Nice, original coins tend to be bought quickly, are treasured by the new owners, and "disappear" for long periods of time. This is due in part to the fact that the savvy collector knows how rare coins with original surfaces are becoming. Unfortunately, even though there is a big demand for original Southern Gold coins, it is frustratingly difficult to acquire them in the marketplace.

Sadly, this **lack** of original coins has been exacerbated by the deliberate stripping of original surfaces in order to obtain a higher grade from the grading services. It is no secret that the two major grading services have typically given a bright, shiny coin more grading points than a crusty, original piece.

I hope dealers learn to recognize that original coins are much more salable than their dipped, overgraded counterparts. It should be in their economic interest to stock coins that will "move" quickly. A nice, original piece not only sells quickly but also results in a satisfied, happy customer. The converse is that a stripped, overgraded coin is a "hard sell" and inevitably results in the customer becoming dissatisfied with the piece. This is why these coins tend to bounce around between novice collectors or investors and ultimately languish in the marketplace.

I also hope that the grading services (that are supposed to reflect "market grading") start rewarding, instead of penalizing, coins with original surfaces. Knowledgeable collectors certainly reward original coins with their willingness to pay premium prices for them. If the grading services started rewarding original coins, it would remove the misguided incentive for those who would otherwise strip away the original surfaces.

Aside from the previous points, I think there is an even more compelling reason to leave the original surfaces intact. I believe that we have an ethical obligation as numismatists to preserve the original surfaces of these artifacts of our national heritage. Once the century-old patina is removed, it cannot be replaced. I sincerely hope it is not too late to change this trend, so that the remaining original coins are preserved for all to enjoy as tangible pieces of our nation's numismatic legacy.

Instant cash for your collection with
the benefit of a competitive auction!

More Money... Less Time

At David Lawrence, our Guaranteed Auction Program gives you both.

If you're looking for more profitable selling options, consider our unique seller's program.

By consigning to our weekly Internet auctions, our agreed "Guarantee Auction Price" (GAP) becomes the basis of your reserve.

You get the upside of the prices realized above the reserve (before the buyer's premium is added) of the realized item. You will receive the Guaranteed Offer on any items that don't sell. It's that simple.

Liberal cash advances are available. Scores of participants have received between 5% and 200% more than the guarantee for their GAP consignments. And you will too...

Call today to learn more about this exciting program.

Let Teletrade Do the Hard Work for You!

Selling your certified coins and currency has never been easier!

We know how busy you are. That's why the professionals at Teletrade go the extra mile to do the hard work so you don't have to!

Teletrade will:

- ★ Promote every auction to more than 160,000 registered bidders.
- ★ Host at least three online auctions every week.
- ★ Photograph your consignment in three levels of detail.
- ★ Allot your certified consignments into auctions within 48 hours of arrival. We are the fastest in the industry!
- ★ Assist you with getting your raw coins and notes certified.
- ★ Pay you promptly – again, we offer the fastest payment in the industry!

Plus, Teletrade offers instant cash advances up to $500,000 to qualified consignors with at least $10,000 worth of coins. Teletrade will wire funds directly to your account or a check can be overnighted within 48 hours.

Call Ian Russell or Irma Kane to learn more about how Teletrade can go to work for you!

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646), or online at www.money.org

AMERICAN NUMISMATIC ASSOCIATION

for over forty years, collectors needing
confidential direction and reliable advice have successfully turned to

Julian M. Leidman

Professional Numismatist & Consultant

With complete confidentiality, I will custom tailor my services to fit your numismatic needs. I can assist in the ***formation of your collection***; with more than 40 years as a professional, I can locate the U.S. coins or currency you need. I can provide you with ***confidential advice***, just as I have for collectors, other dealers, attorneys and corporations. I can help you find those hard-to-get coins and develop your collection. I can act as your ***personal representative*** for any numismatic transaction; take advantage of my decades of experience for a maximum commission of 10%. I can also assist in the ***orderly disposition*** of your holdings, to make sure that you receive top dollar in the marketplace. Between buying and selling, I can ***appraise*** your collection or individual pieces. You know your needs best; contact me for ***expert*** assistance.

Hawaiian Coinage Hot
Damon Sale Sparks Market

by Craig Watanabe

It's been a while since the Hawaiian coin market has been visited, and like most other coin markets, it's doing rather well. However, it was sluggish for a spell because it was without several market makers that were extremely active in the 1970s and '80s. Now, the new guard seems to be the sum total of many dealers on a smaller level that translates into what looks like a strong support base. Wanting to move their inventory and tired of waiting for newer wholesale levels, dealers have been pricing their coins according to how much they've paid and/or feeling what they're worth. That has translated into Hawaiian coins seeking their own true tradable levels.

Before we examine the new wholesale price levels, I will interject here an important news flash about the Hawaiian market that I will visit later in this article. The Hawaiian token market is exploding! I believe this renewed interest is due to a combination of the grading service's acceptance of Hawaiian tokens. To date 57 of these tokens have been graded by PCGS. It is also because of the new awareness by true collectors and numerous dealers, and from the material sold from the estate of Samuel Mills Damon. Even though prices have escalated quite a bit, there are not enough examples of these tokens to go around to satisfy the still strong and growing demand.

The Hawaiian market, just like the rare coin market, is heavily influenced when an important collection appears after a long hiatus. Such was the case on March 23, 2006, when the Coins, Medals and Bank Notes from the estate of Samuel Mills Damon of Honolulu, Hawaii were auctioned in New York City. Doyle New York featured the material, and it generated much excitement. This was one of the most notable auctions of Hawaiian coins and related material to hit the market in many years. Some significant Hawaiian coins that sold included a group of 1883 Hawaiian Dollars that had previously been thought to be unknown in this high quality. The Hawaiian Dollar group was most significant because eight examples were offered in outstanding condition. All were encapsulated and certified by NGC. Five examples were given an MS66 rating; two more received MS67, and one claimed an incredible MS68. Naturally, there was tremendous anticipation and excitement before they hit the auction block. By the time the dust had cleared, $804,000 bought the 8 Gem 1883 Hawaiian Dollars. The NGC MS68 1883 Dollar was the big kahuna as it claimed $192,000. Hawaiian tokens and medals were a part of the Damon estate, and they also generated extreme interest. Bidders expressed their extraordinary desire for them as seen by the prices realized that far exceeded pre-auction estimates. Consider an NGC PR64 (1850-1857) Royal Hawaiian Agricultural Society medal struck in Silver that realized $33,600. It is a medal that boasts early Hawaiian themes throughout. The obverse features the agricultural wealth that typified early Hawaii. It also has the Royal Crown and of course, a palm tree. On the reverse, a person wearing a large brimmed hat is tending to a pig. Palm trees are swaying in the breeze and Diamond Head can be seen in the distance. By the way, its $15,000-$25,000 pre-sale estimate was easily surpassed.

Hawaiian Cents Through Dollars

Hawaiian **1847 Cents** were commonly put over the eye sockets of deceased Hawaiians before burial. Hence, most Cents with corrosion are from burial caves. I once nearly sold such a coin to a lady at the major yearly show here in Hawaii. After I shared the information, she put her checkbook away and refused to purchase the coin. There is also a myth that the coins were thrown into the ocean. However, this probably was not the case as a day's wages amounted to 12½¢. Defect-free Cents are very desirable and difficult to obtain. It is similar to the collector demand that we see for United States Large Cents in the same condition. I, in 35+ years, nor any of the Hawaiian specialists I know have ever seen a true, original spot-free 1847 Hawaiian Cent in full Red Gem condition. However, an 1847 NGC MS63RB Crosslet 4, Large Bust, 15 Berries did trade in the Damon collection sale for $3,600.

Approximately 200 **1881 Nickel (5-Keneta) patterns** were given to King Kalakaua in 1881 by a Frenchman named Maillechort in hopes that the King would order some for use in the islands. However, the coin was never officially adopted. One original specimen sold in the Doyle sale, an NGC AU50 that realized $21,600. Sometime in the 1920s, restrikes were minted **without** the Cross over the Crown.

1883 Dimes were very popular during and after circulation days. Perhaps they were the least expensive way to obtain a small souvenir of the islands? A quarter of a million of them were minted compared to a half million Quarters, 700,000 Half Dollars, and a half million Dollars. Also, the 100,000 Cents that were minted were in circulation 34 years longer, hence, subject to the elements and being lost or misplaced.

The **12½¢ piece** was first a thought for competition to countries that made Pieces of Eight or 'Bits,' but a last minute decision was made to conform to U.S. coinage, hence, only a few Copper and 20 Silver Proofs were minted. As a product of the U.S. Mint in San Francisco (as well as the Dime thru Dollar) the Silver Proof is a most desirable item.

The **1883 Quarter** is the most common denomination found in any grade. The Hawaiian Quarter's availability and affordability are among the many reasons why it is quite popular. I believe that back in the 1920s, one or two original Uncirculated bags were discovered in the Bank of Hawaii's vaults. All through those years and in the 1930s they were advertised in the newspapers for about 30¢ each. Don't get excited! The ad stopped when the coins ran out, and many people have called the bank since then. There are none left. By the

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly **COIN DEALER Newsletter** (*Greysheet*); both report the National Dealer to Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified) but the grading **MUST ADHERE** to the current grading standard. Bids reported also consider activity in the certified **SIGHT-UNSEEN** market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The **CDN** may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly **CERTIFIED COIN DEALER Newsletter** (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

way, there are no known original Uncirculated rolls of any Hawaiian coins other than the Quarters.

1883 Half Dollars are available in all grades; however, clean obverse fields in Gem MS66 and better condition are a true rarity.

1883 Dollars are also popular among world Crown collectors. With patience, defect-free examples can be found. Among the 8 coin Gem hoard sold in the Doyle sale was an NGC MS66 that brought $72,000 and an NGC MS67 at $168,000.

President Theodore Roosevelt gave the islands one year to redeem its coinage for American money, from Jan 1, 1903 through Jan 1, 1904. After it was too late to obtain U.S. money for them, many were made into jewelry; some of them into **fine** jewelry that has good value today. However, some of the plainer examples have had their solder removed, so be on the lookout for those traces. Those coins are worth much less than those that are defect-free.

The origin of Hawaiian **Silver 1883** coinage struck in San Francisco has an interesting story attached. California banker, financier and "sugar baron," Klaus Spreckles, loved the Hawaiian Islands. He was such an important U.S. figure that he naturally became friends with the King after several visits to the islands. Cigar chomping, hard drinking card games were commonplace with the King and other dignitaries such as Robert Louis Stevenson and Samuel Clemens. In due time, not one to let a business opportunity go by, Spreckles mentioned that he knew a Col. E.F. Burton, Superintendent of the San Francisco Mint from July 1882 to July 1885, and coinage with the likeness of his majesty could be imposed for all the kingdom to see every day. Spreckles agreed to put up money for Silver bullion and other costs associated with the coining process. With all the orchestration and project completed, the King and kingdom possessed one million dollars face value of Hawaiian coinage. The cost to Mr. Spreckles was approximately $800,000-$850,000. This is a net profit of about $150,000-$200,000. Not bad for an era when $1,000 a year was considered good pay. I wonder what would happen if such a government "deal" took place today and was revealed?

Collecting Hawaiian **tokens** reminds me of the days when I tried to join an adult softball league. I virtually had to wait until someone on some team passed away, and on top of that, I really had no choice as to what I got.

In *A Guide Book of United States Coins*, by R. S. Yeoman, you can find a list of the main Hawaiian Trade tokens. However, for their varieties and other tokens and medals, I highly recommend the *Hawaiian Money Standard Catalog*, by Don Medcalf.

The **John T. Waterhouse (of Honolulu) token** was issued approximately from 1855-60. It is the earliest known of the Hawaiian tokens. It was made in a soft white metal that had a high quantity of lead. Light contact with just about any foreign object can turn out looking like a gouge. I have never seen a really full rounded nose on the obverse bust of King Kamehameha III, nor a 100% full luster example. A defect-free example, free from damage from the elements or being in contact with other coins or objects is very desirable and usually immediately scooped up by collectors. A VG Pewter example sold at the Doyle sale for $1,560.

Wailuku (Maui) Plantation tokens were issued from about 1871-80. Planchets are made of Copper resulting in hardier coins. However, being struck in the plantation's blacksmith's shop, the quality of strike varies. Finding fully struck examples is a journey in itself, besides nice planchets. There is 12½¢ and the scarcer 6¼¢ examples. Each Wailuku Plantation token features a Starfish on the reverse. Varieties include the Large or Small Starfish. An XF Large Starfish example of the 12½¢ Wailuku Plantation Copper token sold for $7,200 in the Doyle sale.

Thomas H. Hobron (Maui) Kahului & Wailuku Railroad tokens were made in 1879 and are among the more available, high grade, defect-free varieties. The planchet is thin. A 12½¢ XF Copper example brought $4,500 in the Doyle sale. Be wary of the copy issue of 1960 which sometimes has the word "copy" removed from the reverse. A retired biological warfare chemist for the U.S. government, Mr. J. Dews, made these and visited the islands about 20 years ago. He sold me around 500 or so "all remaining examples" after which offering 500 more to each local shop he visited. No one else bit the sales pitch so there must be at least 500+ left in his inventory or estate. His original dies also probably exist.

There is also an extremely rare **1879 Kahului & Wailuku Railroad Copper token 25¢.** There are only 3 known to exist. Once again, thanks to the sale of Damon collection, an NGC XF40 25¢ example brought $31,380 in New York.

The Haiku (Maui) Plantation tokens made in 1882, represent another variety that are generally found well struck and in nice condition. Unfortunately, like all of the *Red Book* Hawaiian tokens, demand is far greater than the supply today.

The Grove Ranch (Maui) Plantation token was made in 1886 and 1887. The quality of its relatively thin planchet is usually good. Strike detail can vary; these are among the rarer of the Hawaiian tokens.

Kahului (Maui) Railroad tokens dated 1891 have the look of tokens manufactured in the continental U.S. during that period. In any event, these are rare and highly sought. Condition is usually nice.

There are also many other very rare, popular, and valuable amusement, bakery, commercial, dairy, military, saloon, school lunch, and other transportation tokens as well as medals and paper script money. These and other items of Hawaii can be found in Medcalf's book.

The Hawaiian coin market shows promise in consistent value. Prices traditionally have not skyrocketed, but there is a true collector base. Top quality examples are bringing exceptional prices. This was in evidence during the Damon Sale and when other Gem quality examples hit the auction market. My suggestion would be to buy the coins that are defect-free or at least have eye appeal. Having a true collector base is important because there are many examples that the grading services will not grade but are still very sought-after by collectors. Sincerely and aloha.

Let Teletrade Do the Hard Work for You!

Selling your certified coins and currency has never been easier!

We know how busy you are. That's why the professionals at Teletrade go the extra mile to do the hard work so you don't have to!

Teletrade will:

- ★ Promote every auction to more than 160,000 registered bidders.
- ★ Host at least three online auctions every week.
- ★ Photograph your consignment in three levels of detail.
- ★ Allot your certified consignments into auctions within 48 hours of arrival. The fastest in the industry!
- ★ Assist you with getting your raw coins and notes certified.
- ★ Pay you promptly – no other auction house pays you faster!

Plus, Teletrade offers instant cash advances up to $500,000 to qualified consignors with at least $10,000 worth of coins. Teletrade will wire funds directly to your account or a check can be overnighted within 48 hours.

Call Ian Russell or Irma Kane to learn more about how Teletrade can go to work for you!

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices, "gem full steps" rolls (when available) bring higher prices. In the Mercury series, "gem full [illegible]" rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls "dull" or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646), or online at www.money.org

LIBERTY SEATED QUARTERS
1838 – 1891

by Larry Briggs

Part 1

It has been a decade and a half since I did the last Liberty Seated Quarter analysis. In that span of time, more astute information has become available concerning the rarities and availabilities of the series. Since my book, *Encyclopedia of Liberty Seated Quarters 1838-1891* was released in January, 1991, only three or four major varieties have come to light, but several of the finest collections ever assembled have been sold. The following is a date-by-date and variety analysis:

1838 No Drapery
Mintage 466,000

First year of issue, a "split year" sharing the Capped Bust Quarter design earlier in the year. Usually found in low grades with "LIB" strong, and "ERTY" weak and/or missing. AU coins can be found with patience, and Mint State coins are available for a price. Frosty when brilliant or heavily toned. Three or four varieties exist — none seemingly rare. Two or three Proofs.

1839 No Drapery
Mintage 491,146

Second year of design (again, usually seen in low grades — AG-VF with same characteristics as all No Drapery Quarters. "LIB" strong, "ERTY" weak or missing). High-end coins scarcer than '38. Uncirculated coins tend to be scarcer than previous year, but, then again, affordable with patience. Five or six varieties exist; with two or three Proofs. Some pieces verified by me in New Orleans hoard.

1840-O No Drapery
Mintage 382,000

First year of New Orleans coins in the Seated Quarter series. Readily available in all grades and especially Mint State coins from the large amount found and recovered in the New Orleans hoard. Brilliant coins from hoard have a grey, brackish color in the edge reeding. Non-hoard coins seem to be usually of russet toning. Two varieties.

1840 With Drapery
Mintage 188,127

Design now modified adding "Drapery"; henceforth to all dates and mints. Scarce in all grades and especially so in Mint State. Small hoard of **seven** Uncs surfaced at the Indiana State Convention in 1983 — all frosty and brilliant. Three varieties exist for year. Proofs exist for date and are R-8.

1840-O With Drapery
Mintage 43,000

This small mintage seems incorrect as the coin shows up much too frequently in Circ grades! In Mint State, however, it is quite rare. The coin comes with a Small O and a Large O mintmark. There are two varieties for the Small O. The Large O variety is actually the rarest in the series and is a reworked/modified No Drapery reverse die! Note: The Medium O variety listed for this year in *Walter Breen's Complete Encyclopedia of U.S. and Colonial Coins* does not exist. Erroneously listed in the *World's Greatest Collection* as a "Medium O", when actually it is a "Small O". This coin resides in a Midwest collection.

1841
Mintage 120,000

Scarce date in all grades. Mint State coins do exist for a price. One variety being a doubled die reverse. Proofs exist but are very rare, R-8.

1841-O
Mintage 452,000

The date exists in all grades from worn out to Mint State. Uncs are common thanks to New Orleans hoard with a large amount of that hoard being the doubled die obverse variety. At one point, Jimmy Cohen of Bourbon Street in New Orleans had the majority of the New Orleans hoard, with two or three site workers retaining the rest. Eight varieties exist for the date.

1842-Small Date
Mintage Unknown

Proof only issue with six or seven pieces known. Two pieces are off the market; one resides in the ANS collection and the other in the Smithsonian Institution Collection.

1842-Large Date
Mintage 88,000

Scarce in all grades with rarity increasing with grade. Mint State coins I've seen have been richly toned and fully struck. 2 varieties exist with Proofs rumored but unverified. 1842-O Large Date is available in lower grades quite easily; becomes scarce in VF; very scarce in XF and rare in AU. Mint State coins are very rare as it seems few of this date were saved. R-6+ in Mint State with 8 varieties known for the Large Date.

1842-O Small Date
Combined Mintage for Lg/Sm Dates 769,000

Rare in all grades and virtually non-existent above VF; XF/AU coins are very rare, and only 2 or 3 real Uncs exist!

1843
Mintage 645,000

Common date. Available in all grades including Gem. True Gems, however, are scarce. Comes well-struck and frosty when brilliant to spectacularly toned. Approximately 7-8 Proofs exist.

1843-O Large O
Mintage Unknown

The rarest variety of the year. Scarce in all grades escalating in rarity with grade to AU. Only 1 Unc known along with 1 seen in the New Orleans hoard.

1843-O Small O
Combined Mintage for Lg/Sm O 968,000

Scarce coin in all grades — very scarce XF/AU and a true rarity in Mint State. 6 varieties known for Small O variety.

1844
Mintage 421,200

The most common of all 1840's Quarters. Available in all grades — including Mint State. Although "common" in Mint State, patience is needed to find the right coin! Comes fairly well struck in an array of toned colors, or with white creamy luster. Proofs exist but are quite rare.

1844-O
Mintage 740,000

Readily available in most grades up to AU. Uncs are very rare. When seen, usually nicely toned and fairly well struck. 9 dies are known, some struck in 1845!

1845
Mintage 922,000

Common coin in Circ grades AG-XF; AU coins are scarce; Uncirculated coins available for a price and with patience. For the most part, well struck. One interesting variety for the year is the 1845/5.

1846
Mintage 510,000

Scarcer coin in all grades than mintage might suggest. Available in AG-AU, but Mint State coins are rare with Gems virtually non-existent. Several varieties exist for year with some nice doubled dates — none rare. One of the more "common" Proofs of the 1840's (if such a thing exists) with 15-18 pieces.

1847
Mintage 734,000

A neat year if you're into varieties. Has a nice doubled date; nice doubled die reverse, plus a combination of the two. Depending on the variety, Prooflikes exist as well as nice creamy Mint State coins. Approximately 7-10 Proofs exist.

1847-O
Mintage 368,000

Scarce date in all grades AG-VF; very scarce XF; rare in AU; and very rare in Mint State. Softly struck is the norm, but comes well-struck too. 3 dies known with one in particular extremely shattered on the reverse in its latest die state. Uncs are very rare — R-7.

1848
Mintage 146,000

Scarce date in all grades AG-VF; very scarce in XF; rare in AU; and very rare in Mint State. Has 2 dies: one a dramatic doubled date, the other a minor tripled 1/ doubled 848 - thus "tripled" date. Mint State coins usually well-struck and beautifully toned. Approximately 7-10 Proofs exist.

1849
Mintage 340,000

Scarce coin that becomes scarcer as the grades escalate. Scarce in Mint State, but available with patience and for a price. Mint State coins seen have been Prooflike or frosty. Proofs exist and are quite rare, being R-7+.

1849-O
Mintage (est.)16,000

One of the many **keys** to the series. Usually seen AG-VG and often with problems. F-VF are rare; XF's and AU's very rare; true Mint State coins extremely rare! Weakly struck is the norm - only 1 die; Mint State coins are R-7+

1850
Mintage 190,800

A scarce date made scarcer — along with the next 3 Philly years — by going into the U.S. Mint's and privateers' melting pots as worth more than face value! Usually some softness to strike; Mint State coins usually nicely toned and borderline rare, R-6+. Scarce AG-XF, very scarce in AU; virtually rare in Uncirculated. 3 dies known, as well as 2-3 Proofs.

1850-O
Mintage 396,000

Scarce coin in all grades and often overlooked as common. 3 dies known with the norm being softly struck and rusted. Scarce AG-VF; very scarce XF-AU; rare in Mint State. If searching for a fully struck, non-rusted die coin, good luck!

1851
Mintage 160,000

Very scarce and **unappreciated** in all grades. Again, many melted. 2 dies known. Low grade coins virtually never seen. F-VF the norm. XF scarce. AU's are very scarce with Mint State coins well struck and rare. Proofs rumored but unconfirmed

Reprint of any issue without permission is expressly forbidden by law.

EXECUTIVE DIRECTOR Pauline Miladin
EDITOR Keith M. Zaner
PUBLISHER Shane Downing
CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (*Greysheet*); both report the national Dealer to Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

1851-O
Mintage 88,000

Very scarce and undervalued in all grades, many having problems. AG-VF very scarce; XF/AU coins rare and true Mint State coins very rare with less than 10 pieces known! 2 dies known, strike usually soft, Mint State coins with creamy, frosty luster.

1852
Mintage 177,060

Another melt year making this date scarce in all grades and rare in Mint State. One interesting variety has a major doubled 1852/52. This die was first used in Proof production and later, once again, for business strikes. Proofs are R-7+.

1852-O
Mintage 96,000

A scarce coin in all grades and rare in XF/AU; very rare in true Mint State. Never seen fully struck as well as the only coin in the entire series with a *beveled collar* causing all struck to have rounded rims! This anomaly caused this year and mint to have no design protection once circulated. This factored into them not being saved; well- worn coins are the norm. 2 dies exist.

1853/3 No Arrows
Mintage 44,200

A very low mintage coin to start with, most saw the melting pots. Now starting to be recognized for its true rarity. Very low grades almost non existent: I've never seen an AG; G-F grades, just a handful! Gems exist, and when encountered, are fully struck and very frosty. Due to substantial price increases the past few years, beware of counterfeit, altered 1858 coins; the 5 is upright. On true 1853 No Arrows coins, the 3 is doubled and the 5 is slanted!

1853 Arrs/Rays
Mintage 15,254,200

New design of Arrows by date, Rays reverse to show weight reduction. One of the **most common** dates in the series with over 100 dies on hand to strike coinage. Available in all grades AG-AU with AU's scarce; Mint State coins are very scarce, and real Gems rare! Proofs do exist and are very rare. Rarest variety is the 1853/4. Available in all grades AG-XF; AU coins very scarce, and rare in Uncirculated.

1853-O Arrs/Rays
Mintage 1,332,000

Fairly easy to locate in all grades AG-XF; AU coins very scarce and Uncs are downright rare. Strike with this issue is a problem along with many coins having a "halo" around most of the design features. This re-engraving occurrence was done at the Mint to try and enhance the strike longevity of the dies — commonly seen on this year, as well as '54-O and '55-O Quarters and Halves! 2 interesting varieties exist for this year: 1853-O Filled O and 1853-O/Horizontal O, both very scarce.

1854 Arrows
Mintage 12,380,000

A very common coin in all grades except Gem BU. Strike luster, surfaces are above average compared to the rest of the series. Proofs are quite rare (R-6+) but do exist.

1854-O Arrows
Mintage 1,484,000

Regular O mintmark: Usually available in all grades up to XF; AU coins are scarce. Mint State coins softly struck, have creamy, pale luster and are very scarce. True Gems are rare.

Huge O mintmark: Scarce in all grades; rare in XF; very rare in AU, Unique in Mint State! Softly struck with an "innertube" shaped mintmark, thus "Huge" O. Luster seen on all high-grade coins is pale. Rarity is overshadowed by the fact that 2 hoards have virtually depleted the market. Still obtainable if you are willing to pay the price!

1855 Arrows
Mintage 2,857,000

The scarcest of the Philly No Motto Arrows Quarters, though available in all grades, including Mint State. Nice strikes accompany nice luster. Proofs exist, and as with the 1854 Proofs, because of collector/investor pressure, are quite rare.

1855-O Arrows
Mintage 176,000

Scarce in all grades, rarity escalating with grade. Problems of all sorts usually plague this issue along with weakness of strike. XF's are very scarce; AU's rare and one Mint State coins very rare. I've never seen one with full strike and luster. [illegible]

1855-S Arrows
Mintage 396,000 + 1

Scarce in all grades up to XF, with XF coins very rare, AU coins rare and Mint State coins very rare. Poor strikes plague this issue along with problems of all sorts (many dealt surface coins suspected as a result of repeated handling between the mining camps in the Gold fields). When AU or better coins are encountered, they usually seen with softness of strike and pale luster.

Another problem started with the San Francisco Mint issues. It seems to have become the fashion of the elite of the times to mount any/all denominations from San Francisco, making them into buttons, pins or earrings. This trend started on 1855-S coinage and was very common until 1873. Very common to find "pins" scalloped off the coins and re-engraving/tooling done. More often the obverse became the "fashionable" victim rather than the reverse. 1 Proof exists along with 2 Proof Halves of the same date, probably to commemorate the striking of 1st Quarters/Halves at San Francisco. 4 dies exist.

1856
Mintage 7,264,000

Arrows now removed from design until 1873-74 issues. Very common date — readily available in all grades, except Gem BU. Luster is usually very satin, creamy. Strike is sharp and full for the most part. Several varieties exist for the year as would be expected with such a large mintage. Repunched dates, misplaced digits and compass point reverses. More than 2 dozen Proofs exist.

1856-O
Mintage 968,000

For a relatively high mintage, few were saved. Usually seen in AG-VF; XF's are scarce; AU's rare; any in Mint State grade are very rare. Strike varies but usually lacking to some degree. A very underrated date.

1856-S
Mintage 286,000
(all varieties)

Regular S: 2nd San Francisco minted date, and once again few were saved. Usually encountered with some sort of problem; available in grades up to VF; XF coins are very scarce; AU 's rare and Unc coins very rare.

Large S/ Small S: Rarest variety for year. Very scarce in all grades. True rarity has been unveiled the past few years with the rising popularity of the series. True Mint State coins, R-7+.

1857
Mintage 9,644,000

Large mintage and availability in all grades for this date. Uncs available with Gems being scarce. Usually strike varies from coin to coin with creamy luster or gorgeous toning. One interesting variety has reverse clashed with a Flying Eagle Cent reverse. Years ago, Bill Fivaz showed me 2 Gems at the same time. A very rare variety.

1857-O
Mintage 1,180,000

High mintage with all grades available up to XF; AU coins are scarce, and BU coins are rare. Early New Orleans coins — regardless of mintage — just weren't saved. Usually found softly struck with Uncirculated pieces having soft/creamy luster. Rarest variety of year has an extra "18" punched into the denticles under and between "85" of date. Presently only 3 coins known of this variety.

1857-S
Mintage 82,000

A low mintage date with 3 varieties known. Many pieces of this date come with varying degrees of problems. For a low mintage coin, it seems to be available in all grades with patience being the key! Still a scarce coin in all grades up to XF, very scarce in AU, rare in Mint State. Usually well struck with creamy luster.

1858
Mintage 7,368,000

High mintage date, available in all grades. Strike varies from very poor to exceptional. Usually comes with sharp Wire Rims, many times confused as Proofs. 2 minor obverse doubled dies exist. First year to have a fair number of Proofs issued, approximately 75-100 pieces.

1858-O
Mintage 520,000

For a medium/high mintage date, scarce and underrated in all grades. Seldom found in XF; AU's are rare, and Mint State coins are very rare. 2 varieties are known, and both are plagued with the New Orleans softness of strike. Underrated!

1858-S
Mintage 121,000

A rare date in all grades and especially so when problem-free, which is not the norm! 3 varieties exist. Grades usually AG-VF with problems; XF coins are rare; AU's very rare, and to date, the so-called Uncirculated examples that I've been shown, I failed to agree with the grading! I'd pay to see a true CH BU or Gem BU coin of this date! Anyone?

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore they are all usually high grade.

MS60-Unc: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 Choice BU: Brilliant Unc (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan but with the additional feature of deep mirror surfaces on both sides.

Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

UPDATED CDN GRAPH-BOOKS

Historic CDN Bid Prices • 1980 – 2007

The **CDN Graph Books** are the only source for historic pricing data. Knowing the all-time high, the historic low and the current value are crucial when making **Buying or Selling** decisions. Every serious numismatist will treasure the entire series of **CDN Graph Books.**

5 New Books

FLYING EAGLE & INDIAN CENT 1980-2006/07
Graphs cover every issue as listed on page 4 of the CDN Monthly Supplement in grades: AU50, MS60B, MS63B, MS64RB & MS65RB.

LINCOLN CENT 1980-2006/07
Graphs cover every issue as listed on page 4 of the CDN Monthly Supplement in grades: AU50, MS60B, MS63RB, MS64R & MS65R.

TWO CENT PIECE 1980-2006/07
Graphs cover every issue as listed on page 5 of the CDN Monthly Supplement in grades: G, VG, F, VF, XF, AU50, MS60B, MS63B, MS64RB & MS65RB.

THREE CENT SILVER 1980-2006/07
Graphs cover every issue as listed on page 5 of the CDN Monthly Supplement, in grades: G, VG, F, VF, XF, AU50, MS60, MS63, MS64 & MS65.

THREE CENT NICKEL 1980-2006/07
Graphs cover every issue as listed on page 5 of the CDN Monthly Supplement, in grades: G, VG, F, VF, XF, AU50, MS60, MS63, MS64 & MS65.

SHIELD NICKEL 1980-2006/07
Graphs cover every issue as listed on page 5 of the CDN Monthly Supplement, in grades: G, VG, F, VF, XF, AU50, MS60, MS63, MS64 & MS65.

LIBERTY NICKEL 1980-2006/07
Graphs cover every issue as listed on page 6 of the CDN Monthly Supplement, in grades: G, VG, F, VF, & XF, AU50, MS60, MS63, MS64 & MS65.

CIRC BUFFALO NICKEL 1980-2006/07
Graphs cover every issue as listed on Page 6 of the CDN Monthly Supplement, in grades: G, VG, F, VF, XF, & AU.

UNC BUFFALO NICKEL 1980-2006/07
Graphs cover every issue as listed on page 6 of the CDN Monthly Supplement, in grades: MS60, MS63, MS64 & MS65.

BARBER DIME 1980-2006/07
Graphs cover every issue as listed on pages 6 and 7 of the CDN Monthly Supplement, in grades: MS60, MS63, MS64 & MS65.

MERCURY DIME 1980-2006/07
Graphs cover every issue as listed on page 10 of the weekly CDN, in grades: MS60, MS63, MS64, MS64FB, MS65 & MS65FB.

TWENTY CENT 1992-2006/07 NEW
Graphs cover every issue as listed on page 6 of the CDN Quarterly I in grades: G, VG, F, VF, XF, AU, MS60, MS63, MS64, MS65, PR60, PR63, PR64 & PR65.

BUST QUARTER 1992-2006/07 NEW
Graphs cover every issue as listed on page 6 of the CDN Quarterly I in grades: G, VG, F, VF, XF, AU50, MS60, MS63, MS64 & MS65.

CIRC LIBERTY SEATED QUARTER 1992-2006/07 NEW
Graphs cover every issue as listed on page 7 of the CDN Quarterly I in grades: G, VG, F, VF, XF & AU50.

UNC LIBERTY SEATED QUARTER 1992-2006/07 NEW
Graphs cover every issue as listed on page 7 of the CDN Quarterly I in grades: MS60, MS63, MS64, MS65, PR60, PR63, PR64 & PR65.

BARBER QUARTER 1980-2006/07
Graphs cover every issue as listed on pages 7 and 8 of the CDN Monthly Supplement, in grades: MS60, MS63, MS64 & MS65.

STANDING LIBERTY QUARTER 1980-2006/07
Graphs cover every issue as listed on page 8 of the CDN Monthly Supplement, in grades: G, VG, F, VF, XF, AU50, MS60, MS63, MS64, MS65 & MS65FH.

WASHINGTON QUARTER 1985-2006/2007
Graphs cover every issue as listed on page 8 of the CDN Monthly Supplement, in grades: AU, MS60, MS63, MS64 & MS65.

EARLY HALF DOLLAR 1992-2006/2007 NEW
Graphs cover every early issue listed on page 8 of the CDN Quarterly II in grades: G, VG, F, VF, XF, AU50, MS60, MS63, MS64 & MS65.

BARBER HALF DOLLAR 1980-2006/07
Graphs cover every issue as listed on page 9 of the CDN Monthly Supplement, in grades: MS60, MS63, MS64 & MS65.

WALKING LIBERTY HALF DOLLAR 1980-2006/07
Graphs cover every issue as listed on page 10 of the weekly CDN, in grades: AU50, MS60, MS63, MS64 & MS65.

CIRC MORGAN DOLLAR 1980-2006/07
Graphs cover every issue as listed on page 6 of the weekly CDN, in grades: VG, F, VF, XF & AU (plus a Silver Spot overlay).

UNC MORGAN DOLLAR 1980-2006/07
Graphs cover every issue as listed on page 6 of the weekly CDN, in grades: MS60, MS63, MS64, MS65, MS66 & MS67.

DMPL MORGAN DOLLAR 1980-2006/07
Graphs cover every issue as listed on page 7 of the weekly CDN, in grades: DMPL-63, DMPL-64 & DMPL-65.

PEACE DOLLAR 1980-2006/07
Graphs cover every issue as listed on page 6 of the weekly CDN, in grades: VG, F, VF, XF, AU, MS63, MS64, MS65, MS66 & MS67.

$2½ INDIAN HEAD 1980-2006/07
Graphs cover every issue as listed on page 3 of the CDN Monthly Supplement, in grades: MS60, MS62, MS63, MS64, MS65, PR60, PR63, PR64 & PR65.

$5 INDIAN HEAD 1980-2006/07
Graphs cover every issue as listed on page 3 of the CDN Monthly Supplement, in grades: MS60, MS62, MS63, MS64, MS65, PR60, PR63, PR64 & PR65.

$10 INDIAN HEAD 1980-2006/07
Graphs cover every issue as listed on page 3 of the CDN Monthly Supplement, in grades: MS60, MS62, MS63, MS64, MS65, PR60, PR63, PR64 & PR65.

$20 SAINT-GAUDENS 1980-2006/07
Graphs cover every issue as listed on page 3 of the CDN Monthly Supplement, in grades: MS60, MS62, MS63, MS64, MS65, PR60, PR63, PR64 & PR65.

MINT STATE TYPE 1980-2006/07
Graphs cover the Types as listed on page 9 of the weekly CDN, in grades: AU50, MS60, MS63, MS64 & MS65.

PROOF TYPE 1980-2006/07
Graphs cover the Types as listed on page 10 of the weekly CDN, in grades: PR60, PR63, PR64 & PR65.

GOLD TYPE 1980-2006/07
Graphs cover the Types as listed on the front page of the weekly CDN, in grades: VF, XF, AU50, MS60, MS63, MS64 & MS65 (plus a Gold Spot overlay).

PROOF GOLD TYPE 1980-2006/07
Graphs cover the Types as listed on page 3 of the CDN Monthly Supplement in grades: PR60, PR63, PR64 & PR65.

SILVER COMMEMORATIVE 1980-2006/07
Graphs cover Bid levels for the classic Silver Commems listed on page 2 in the weekly CDN, in grades: XF, AU, MS60, MS63, MS64, MS65 & MS66.

GOLD COMMEMORATIVE 1980-2006/07
Graphs cover all Gold Commems as listed on page 2 of the weekly CDN, in grades: XF, AU, MS60, MS63, MS64, MS65 & MS66.

FIRSTSTRIKE®

COMMIT TO YOUR **PCGS** FIRST STRIKES *TODAY* PICK THEM UP IN *MARCH*.

Introducing a ***better*** way to finance modern gold and silver…
with an industry best 3.8% lease rate

1. Select how many gold and silver eagles or gold buffalos you want to commit to. Minimum commitments are 100 oz. for gold and 5,000 oz. for silver. The coins can be held until the end of 2008.

2. Pay only the estimated coin premium up front (mint cost + 0.6% on gold, and mint cost + 11 cents on silver)

3. Instruct PCGS when and how many coins you wanted graded

4. When you are ready for delivery, notify Minshull Trading and price the coins on the next business day's London PM fix. Minimum order is 25 oz. of gold or 500 oz. of silver. Pricing on gold coins uses Fix + 50 cents per ounce for spot value.

5. Wire Minshull Trading within three days, or obtain financing from Collectors Finance Corporation

6. The coins are released at PCGS! You are responsible for all shipping arrangements and fees from this point. You can schedule to pick up coins from January until the end of 2008. No in and out fees!

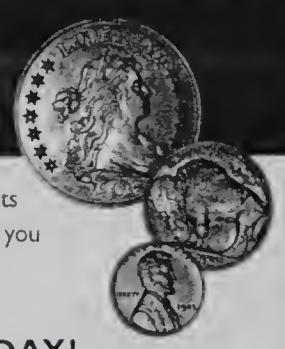

Call Minshull Trading (310) 544-4400

Ask Lee, William, or Balazs for further details.

All grading charges are billed directly by PCGS to customer.
No delivery charges for coins delivered to PCGS.

Financing is also available for **platinum** coins. Lease rate on platinum coins subject to market rates, updated monthly.

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.
